## Faculty Symposium

### *“Save Valuable Course Prep Time in WebCT Using e-Packs”*

Presenting

**Brian Oppy,** Psychology

**Bill Bergman,** Management

**Michael Dafferner,** Thomson Learning

Program

**Thomson e-Learning: What is an e-Pack? What does it provide?  
*Text, Multimedia and Assessment Content for WebCT ...***

Study Materials, such as chapter objectives, chapter summaries, chapter outlines, quizzes for self-assessment, discussion topics, flashcards for vocabulary support, and web links are commonly offered. And support! Visit Thomson online - <http://webtutor.thomsonlearning.com/>

**Brian Oppy** is teaching Psychology 001A, using e-Pack *Psychology: Concepts and Connections*, Brief Version 7th, 2004 WebTutor Advantage by Rathus. This will be the first semester he has tried this with his class of 170 students. Come hear what he has to say about it, how it has saved him time!

**Bill Bergman** is teaching Management 129, Communication in Business using the textbook with Thomson-Southwestern, *Business Communication, Process and Product*, 4e, Mary Ellen Guffey, 2003. This textbook was honored by the *Text and Academic Authors Association* as the top book in its field. “...it prepares students to thrive in the new digital workplace.” Bill ordered the corresponding e-Pack and finds it extremely helpful. He will demonstrate the e-Pack’s many features.

## Faculty Symposium

### ***“Help Students to Become Independent Learners!”***

Allow students to view faculty-created tutorials anytime. *“Create once, watch often.”*

Presenting

**Sally Adams,** Business Administration

**James Tyler,** Online Curriculum Support Librarian

**Matt Philipps,** TLP

Program

**Camtasia** can help you create a narrated tutorial to demonstrate how to do computer tasks by grabbing screen shots and recording voice narration. Sally Adams will show you how she uses Camtasia software to do just this.

Online Curriculum Support Librarian, James Tyler, will discuss how he has helped several faculty members learn Camtasia and apply the results to teaching lessons. This software is easy to use, and can be a big help in creating student self-directed learning modules. Come see live examples and ask questions.

Instructional Technology Consultant, Matt Philipps of the Technology & Learning Program (TLP) can teach you how to use Camtasia in a workshop setting. For schedules and to register online, visit <http://training.csuchico.edu>.

Sponsored by Information Resources, Academic Technologies  
and the Technology & Learning Program
