## Faculty Symposium

### *“How to Create a DVD for Your Course”*

*Participants will learn how to add multimedia to a course in the form of a DVD, how it can help students learn, how it can save students precious time downloading audio and visual materials from the Internet, and how it increases student time-on-task.*

#### Presenters

**Patricia Smiley**, Professor

Department of Physical Education and Exercise Science

Dr. Smiley has over 10 years of experience teaching online, and will show how she creates and uses DVDs to increase student time-on-task and develop learning that lasts.

**Donna Crowe**, Media Specialist

Technology and Learning Program

Ms. Crowe has been helping faculty develop and use video, audio, CD-ROM and DVD technologies to enhance student learning for the last 10 years.

*(See over for details of the presentation.)*

# Center for Excellence in Learning and Teaching Technology in Learning and Teaching

present

## *“How to Create a DVD for Your Course”*

In this session you will benefit from Dr. Smiley’s years of experience as she shows how to use the media materials you already have (or can easily create) to make a course DVD.

**If you have course media like any of these** (with copyright clearance):

- video clips
- audio clips / music
- photos / slides
- scrapbooks / memorabilia
- sculpture / 3-dimensional objects

*...then consider a course DVD.*

**If you would like to record:**

- a media rich lecture
- a course introduction / overview / video syllabus
- a guest speaker
- a field trip
- a complex concept through animation

*...then consider a course DVD.*

*TILT is sponsored by Information Resources,  
Academic Technologies  
and the Technology & Learning Program*

### **Spring 2004 TILT Faculty Presentations** (all in Studio A)

- Mar. 12, 1-3pm: “Tips for Teaching Online, Using WebCT & HorizonLive”
- April 8, 1-3pm: “How to Spice Up Class Communication” -  
*Faculty use the WebCT Discussion Tool very differently, hear them out!*
- May 30, 1-3pm: Learning Objects Showcase
