The CSU, Chico Police Department has primary law enforcement jurisdiction for all criminal incidents occurring on-campus. This includes incident investigation, follow-up, and resolution. CSU, Chico Police Department works in conjunction with outside agencies, such as the Butte County Sheriff’s Department, the City of Chico Police Department, and local fire and emergency medical services.

CSU, Chico Police Department (UPD) is located on the corner of 2nd St. and Chestnut St. and reports can be made in the lobby 24 hours per day, 7 days per week. There are a number of ways to contact UPD if you are not able to come in. Directions for contact are below.

**EMERGENCIES ON-CAMPUS**

The on-campus emergency telephone number is **9-1-1**. Use this number for reporting on-campus fires, criminal or suspicious activity, and medical or other emergencies. This number goes directly to the CSU, Chico Police Department if dialed from a campus phone. Dispatchers are trained to respond appropriately to emergencies of any nature.

**ON-CAMPUS NON-EMERGENCIES**

The non-emergency telephone number to contact the CSU, Chico Police Department is (530) 898-5555. This number should be utilized to obtain non-emergency, on-campus police services.

**Blue Light Phones:** There are over 60 blue light emergency telephones located throughout the campus and student housing which connect directly to the CSU, Chico Police Department. These auto-dialing phones may be used to summon emergency police, fire, or medical assistance or report criminal or suspicious activity. The phones are equipped with a “Caller ID” feature which allows the dispatcher to know the exact location of the blue light emergency phone activated by the call.
SPECIAL SAFEGUARDS FOR FACILITIES OR ACTIVITIES

CSU, Chico employs a number of safeguards for facilities. There are barrier arms and/or bollards at vehicle access points to limit vehicles on campus. Vehicles that are allowed on campus are only allowed to do so at prescribed times and only with approval from UPD. Many campus doors are controlled by Card Access, ensuring that only students, staff, and faculty with campus business to conduct have access to those rooms. UPD controls the software for Card Access, while Facilities, Management, and Services (FMS) is responsible for the hardware of panels and readers. CSU, Chico also has an on-campus key shop that monitors and controls who has keys for doors that are not controlled by Card Access.

UPD is responsible for patrol and security measures for on-campus activities. Officers are proactive with patrolling efforts and depending on the size of the event, such as commencement, UPD may request assistance from allied law enforcement agencies for extra patrol, K9 units, etc.

PAST AND FUTURE SAFETY PROGRAMS

CSU, Chico practices a variety of safety programs designed to keep students, staff, faculty, and visitors safe. While no single crime prevention measure can guarantee safety, a diverse strategy of awareness and education can greatly reduce one’s chances of becoming a victim of crime. Below are some programs that can help.

R.A.D.

The CSU, Chico Police Department takes pride in its crime prevention programs, including Rape Aggression Defense (R.A.D.). R.A.D. is a system of self-defense designed specifically for women. It combines risk-reduction strategies with basic physical defense techniques, making it one of the most comprehensive courses of its kind. The course is taught by certified instructors and is the only women's self-defense program ever to be endorsed by the International Association of Campus Law Enforcement Administrators (IACLEA). The course concludes with realistic scenarios performed in a safe environment by trained police department staff. More information about R.A.D can be found at http://www.csuchico.edu/up/safety_programs/rad.shtml.

FRESHMAN SAFE START

Freshman Safe Start is designed to educate and inform freshman students on safety issues that encompass college life in any environment. It provides support to students who, often for the first time, are away from home and are often unprepared for the situations that they may face in their college career. The Freshman Safe Start program is committed to training all incoming freshmen students living in University Housing. Freshman Safe Start topics include:

- General personal safety tips
- Sexual assault awareness and prevention
- Bystander intervention training
- Avoiding and reporting interpersonal violence and stalking
• Hate crimes
• Overview of resources and assistance available on- and off-campus

Additionally, crime prevention pamphlets are available in the CSU, Chico Police Department lobby. The CSU, Chico Police Department provides an officer for the annual Summer Orientation Program to inform prospective students and their parents of available police services and programs. Similar presentations are provided for graduate and international students. Safety talks are available upon request for any office, organization, or classroom on campus (based on the availability of a police department presenter).

CAMPUS CONNECTION

Campus Connection is the campus safety shuttle. It runs during the fall and spring academic semesters, 7 days a week, from 6:00 p.m. to midnight. The shuttle drivers, who are trained police department student-level Community Service Officers (CSOs), follow a predesignated route consisting of 15 stops throughout the main campus, campus parking lots, and off-campus University-owned apartments. All of the Campus Connection stops are located near University blue light phones, so that riders have emergency access to the CSU, Chico Police Department while they are waiting for the shuttle.

From midnight until 2:00 a.m., the Campus Connection program shifts from a route system to a fixed location, and the CSOs are based out of the Meriam Library. Library patrons who feel unsafe walking home can ask for an escort, on foot or in the shuttle, to one of the locations the shuttle would normally travel on the route.

OPERATION IDENTIFICATION

Operation Identification is a personal property protection program that enables students, faculty or staff to “rent” an engraver from the police department and use it to engrave their personal property. The engraver can be rented for free, with the participant’s driver’s license or Wildcat (student body) Card left as collateral, or the participant can bring an item, such as a bike or laptop, to the CSU, Chico Police Department lobby to be engraved. Engraved items are less likely to be stolen for resale because many pawn shops and savvy buyers are wary of secondhand engraved property.

NEW STUDENT ORIENTATION

During summer orientation, new students are provided information regarding laws and CSU policies prohibiting sex discrimination and harassment (including sexual misconduct, domestic or dating violence, and stalking), affirmative consent, confidential reporting, on- and off-campus resources, and how to report incidents of sex discrimination or harassment, sexual misconduct, dating or domestic violence, and stalking.

NEW STUDENT TRAINING: NOT ANYMORE

As part of CSU, Chico’s commitment to the safety, health, and wellness of our campus community, the University requires all incoming students to complete Not Anymore, an online interpersonal violence
prevention program providing information about consent, bystander intervention, sexual assault, dating and domestic violence, stalking and more. Completion of the Not Anymore online program is mandatory for all incoming students, and should be completed prior to the first day of classes. Failure to complete the program with at least an 80% score results in an academic hold being placed on the student’s records and will prevent the student from registering for classes the following academic period.

SEXUAL VIOLENCE, BYSTANDER INTERVENTION, & VICTIM BLAMING TRAINING

Sexual misconduct, bystander intervention, and victim blaming training is available to students who are not newly enrolled at CSU, Chico and provides information geared at preventing sex discrimination, sexual harassment, sexual misconduct, dating and domestic violence, and stalking. Students are also provided information about relevant CSU policies, resources, and confidential reporting.

ANNUAL PREVENTION AND AWARENESS TRAINING

Student athletes, Resident Advisors, members of club sports, and members of fraternities and sororities are provided annual training to promote awareness of affirmative consent, sexual misconduct, dating violence, domestic violence, and stalking. CSU and campus policy information is provided. By focusing on situations that members of these groups may encounter, they are provided information regarding safe and positive options for bystander intervention, myths and facts about sexual misconduct, risk-reduction tips to avoid becoming a victim and to avoid becoming a perpetrator, and resources for victims. Resident Advisors and athletic coaches, are also provided training to help ensure that they handle incidents of sexual harassment, sexual misconduct, dating or domestic violence, and stalking appropriately.

NEW EMPLOYEE ORIENTATION

New Employee Orientation provides general information to new employees. During the orientation, new employees are provided information on campus safety, discrimination, harassment, retaliation, child abuse and their obligation to report. CSU and campus policy information is provided and discussion on the responsibilities to report to the Title IX coordinator and share confidential resources with victims of sex discrimination, sexual harassment, sexual misconduct, dating or domestic violence, and stalking is emphasized.

ANNUAL TITLE IX ONLINE COMPLIANCE TRAINING FOR EMPLOYEES

The CSU Chancellor’s Office provides access to Title IX online training for employees. The objective of the training is to help CSU employees identify sex discrimination, sexual harassment, sexual misconduct, domestic or dating violence, and stalking. The training also provides general Title IX information, resources for reporting, and ways employees can help victims. A learning management system is used to automatically assign the training to all employees (including student employees) on a yearly basis, provide notices of deadlines, and track completion of training.
MOONLIGHT SAFETY WALK

The moonlight safety walk is an annual program, most recently accomplished on October 22nd, 2015. During the moonlight safety walk, volunteers comprised of students, staff, faculty, and the public divide into teams to walk through areas of campus to help identify safety hazards, including inadequate lighting or overgrown brush. UPD, FMS, and other departments receive feedback from volunteers in an effort to address or correct noted safety issues.

FUTURE PLANS TO INCREASE SAFETY

Butte County, working in conjunction with the State of California, is very close to finalizing a program that would allow for anyone with access to text messaging service the ability to text an emergency to 9-1-1. This service would be especially useful for those who are unable to speak or hear, depending on the circumstances of the caller.

CSU, Chico will soon be modifying and expanding Card Access service to more doors on campus.

In the next two years, CSU, Chico will likely expand and improve our already robust camera and blue light phone systems throughout campus. In that same time frame, CSU, Chico has plans to increase participation in active shooter drills.

CSU, Chico Police Department is in the process of hiring several new staff members to improve patrol and dispatch efforts to improve campus safety.

Chief Feeney (UPD) and Chief O’Brien (Chico Police) have collaborated on a plan to improve lighting and install cameras on the bike path adjacent to campus that is often used by students.
Uniform crime reporting (UCR) is a collective effort by city, county, state, tribal, and federal Law Enforcement Agencies (LEA’s) to present a nationwide view of crime. Agencies throughout the country participate in the FBI UCR Program and provide monthly summarized reports on ten Part I offenses known to law enforcement and reports on persons arrested. The Part I offenses, murder, rape, robbery, aggravated assault, human trafficking-commercial sex acts, human trafficking-involuntary servitude, burglary, motor vehicle theft, larceny-theft, and arson, are considered indicators of the level of crime occurring within the United States. Crime reports also provide information about law enforcement officers killed and assaulted, hate crime and cargo theft.

The UCR Program divides offenses into two groups – Part I and Part II. The FBI UCR Program collects offense and arrest data on all Part I offenses that become known to law enforcement whether or not they involve arrests. However, the UCR Program only collects arrest data on Part II offenses.

CSU, Chico submits crime reports to the California State UCR program. State UCR Programs then forwards data, using uniform offense definitions, to the FBI UCR Program.
