*Note: The column "Total Demand" is the sum of all student demand for this course regardless of the number of units a student now holds. Also note that the total for this column will not necessarily match the college total on the "All Unmet Demand" summary. This is because the entire unmet demand for some courses consists of students who now have more than 13 units and this report only includes courses for which some of the unmet demand consists of students having 13 or fewer units.

*Note: The column "Total Demand" is the sum of all student demand for this course regardless of the number of units a student now holds. Also note that the total for this column will not necessarily match the college total on the "All Unmet Demand" summary. This is because the entire unmet demand for some courses consists of students who now have more than 13 units and this report only includes courses for which some of the unmet demand consists of students having 13 or fewer units.

*Note: The column "Total Demand" is the sum of all student demand for this course regardless of the number of units a student now holds. Also note that the total for this column will not necessarily match the college total on the "All Unmet Demand" summary. This is because the entire unmet demand for some courses consists of students who now have more than 13 units and this report only includes courses for which some of the unmet demand consists of students having 13 or fewer units.
