

Associated Students
Annual Program Review of Performance and Quality
2004-05

ACTIVITY FEE FUND

2004-2005 Goals and Outcomes

Programming (Goal 1)

- *To assist the University in the provision of service learning and community service, CAVE will be integrally involved in the training, orientation, and clearing of students who will be placed in the local schools.*

Outcome: Last fall, CAVE, the University, and Chico Unified School District entered into an agreement that CAVE would be responsible for the clearing and orienting of all Chico State students referred to the schools to acquire service learning and community service hours. Part of this agreement led to the funding of an additional Assistant Program Manager position, specifically to work with the faculty and the schools.

- *To provide additional child care and quality learning experiences for students through the merging of the Children's Center and the Child Development Lab.*

Outcome: The Child Development Lab merged with the Children's Center, providing more space in the Children's Center, an ability to serve more student families, and a quality learning experience for students taking child development courses (*addresses Goal 5 as well*).

Facilities (Goal 2)

- *To ensure that up-to-date and formal agreements exist between Activity Fee programs and the University (i.e., lease agreement between E-ARC and the University; affiliation agreement between CAVE and SIFE).*

Outcome: Although many formal agreements have already been created and/or approved, we continue to identify other areas where agreements are also needed. This will be an on-going project.

Technology (Goal 4)

- *To have website information on Government Affairs and the six annually funded programs that is standardized, up-to-date, and accessible to students and the community.*

Outcome: The AS website, aschico.com, was formally launched in October 2004. Individuals responsible for each site have been identified and trained to ensure standardization and up-to-date, accurate information.

ACTIVITY FEE

2005-2006 Goals

- To continue to work with the Children's Center staff regarding staff morale and funding accountability (Goal 3)
- To develop and approve an affiliation agreement between the Associated Students and CLIC. (Goal 1)
- To assess the role and responsibilities of the GAC Office Coordinator/Minute Taker to determine if re-structuring or any other significant changes are warranted. (Goal 3)
- To find both a short-term and long-term location for KCSC. (Goal 2)
