Composting keeps organic waste out of the landfill and returns valuable fertilizer to the earth.

The AS Marketplace in the BMU, can compost food scraps, paper plates, napkins, paper coffee cups, and more! Look for bins with the compost label.

The following items should not go into the compost bins: plastic or bio-plastic items, straws, forks, spoons, or Pepsi cups in the compost bins.

**AS Recycling** provides compost bins for special events. Recycling staff will deliver, service and pick-up the bins at the event. To arrange for bins at your next event, contact AS Recycling at least one week in advance.

To request a compost bin for a special event contact AS Recycling 898-5033 [asrecycle@csuchico.edu](mailto:asrecycle@csuchico.edu).
