2. ABSENT: Durbin Sayers, (Facilities); Alan Rhoades (AS Commission of Environmental Affairs); Duane McCune (Procurement); Mark Stemen, (Faculty); Halli Bovia (on leave)

3. Minutes 5-13-10 – Approved with no changes

4. Old Business
   a. **Recommendations to Campus Administration** – The subcommittee has included comments and suggestions from the committee into this document. The committee is being asked to fully review the report prior to the meeting with the intent to approve the document. However, there was once again lively discussion surrounding this document. Additional changes were made to the introduction and section I. The committee would like to spend more time on the paper diversion section and EPP recommendations prior to approving. The revised document will be sent via email to the committee and all members are encouraged to make suggestion to the document **prior** to next month’s meeting, paying particular attention to section II and III.

   Dale brought up the suggestion again that the document focus on just one area of improvement due to the length of time it is taking to get this document completed, however, the committee vigorously opposed the suggestion.

5. New Business
   a. No committee meeting in July – since the document was not approved and there continues to be changes made, it was determined that we need to meet in July. Melissa offered to send an outlook request for a meeting in the first ½ of July.

6. Next Meeting July - TBD
