Recycling Books

Are you getting rid of old books or journals? Do you have a collection of books that you've outgrown, do not want, or no longer need?

Countless numbers of used books can be saved from the landfills and put into the hands of people who need and want them.

**AS Recycling** processes discarded books for recycling or reuse. Books with potential for reuse are donated to local thrift stores or schools; all unwanted books are shredded for recycling as waste paper. Textbooks, journals, and novels, both hardback and paperback are accepted.

Small quantities of books may be put into the [mixed paper recycling bins](#). If you have a large quantity of books you would like to discard, you can request a special pick-up by contacting AS Recycling 898-5033 or [asrecycle@csuchico.edu](mailto:asrecycle@csuchico.edu).

Large quantities of books can be dropped off on Saturdays at the AS Recycling warehouse located at on the corner of 4th and Cherry Street.
