

Exercise 8:
Wedge Block

Create this part using the dimensions and other information given. This lab reinforces the following skills:

- Sketching
- Bosses
- Cuts
- Editing

Design Intent

The design intent for this part is as follows:

1. The part is symmetrical with respect to its midplane.
2. There are two versions of this part with different shaped cutouts.
3. You should be able to build this part with one base feature and two cut features.

Open a new part using the `Part_IN` template.

Version 1

Use the following illustration and the stated design intent to build this part. Keep in mind the requirement to modify the part according to the dimensions given for Version 2.
