Vendor Information

Vendors supply information through On-line intelligent catalogs. The below specification was obtained from the SMC website: (www.smcworld.com).

SMC provides drawings and tables on their components. The depth and width dimensions are required for the GUIDE-CYLINDER Assembly. What two letters in the table below represent the depth and width dimensions? Answer: C and H, respectfully.

What are the values for C and H?

C = 44 + Stroke Length = 44 + 100 mm = 144 mm.

H = 148 mm.

The GUIDE-CYLINDER depth is 144mm and the width is 148mm.
