Friends of The Chico State Herbarium — California State University, Chico

Growing Plants in Containers
Saturday - March 28, 2015 - 9am to 1pm
Room 129, Holt Hall, CSU Chico

Ernesto Sandoval, director of the UC Davis Botanical Conservatory, will share his knowledge of growing plants in containers (and in the ground).

**Topics will include:**
- Soils
- Nutrients
- How plants grow
- The importance of knowing the pH of soils
- Watering

Learn the answers, in easy to understand terms, to these and many other horticultural questions that you and others have and are encouraged to bring!

Ernesto, with a degree in Botany from UC Davis, grows thousands of many different kinds of plants as director of the UC Davis Botanical Conservatory. He enjoys explaining and interpreting the world of plants to a variety of ages and experiences from K-12 to professionals and Master Gardeners. With a science background he has many years of practice in relating Science and Biology to people at all horticultural levels. He loves the technical language but prefers to relate information in more understandable methods of communication. By helping people to understand the workings of plants he hopes to help us better understand how and why our plants do what they do.

The registration fee is $45; members of Friends of the Herbarium $40. Please register in advance; class size is limited to 20 participants (class cancelled without a minimum of 10 participants). Location: Holt Hall room 129 at CSU Chico. For information about the workshop please contact Ernesto Sandoval at jesandoval@ucdavis.edu. For information about workshop registration contact the Biology office at (530) 898-5356 or epurvis@csuchico.edu.
