BA in Social Science
Minor in Applied Social Research Methods
Minor in California Studies
Minor in Career and Life Planning
Minor in Family Relations
Single Subject Teaching Credential in Social Science
MA in Social Science
Options in:
  General Social Science
  Social Science Education

Social Science Patterns

The BA in Social Science is designed for students who have a broad interest in the behavioral and social sciences. At Chico, the social science program includes the disciplines of anthropology, child development, economics, geography and planning, health and community services, history, political science, psychology, sociology, social work, and gender and multicultural studies.

Social Science and Special Programs

The breadth pattern is a broad, interdisciplinary 46-unit major. Its primary intent is to give students a solid liberal arts grounding in the social sciences.

The depth pattern is a 46-unit major which consists of 24 units from one of the primary advising concentrations and 15 units in a secondary concentration, plus an integrative capstone social science seminar and an introductory computer course.

Program Minors

The Minor in Applied Social Research Methods is an integrated set of studies which gives students the skills to research in most areas of the contemporary social sciences.

The Minor in California Studies provides an integrated set of studies which will increase students’ knowledge and understanding of California.

The Minor in Career and Life Planning provides students with skills in career guidance and occupational resources, and the educational requirement for national certification as a Career Development Facilitator. Beneficial to those entering helping professions.

The Minor in Family Relations provides students with a systematic, interdisciplinary approach to the family as an institution, the current state of knowledge relating to family relations, gender relations, and child socialization. This coursework is a valuable complement to studies in psychology, social work, sociology, and child development.

Single Subject Teaching Credential

The breadth pattern in the Social Science program with additional coursework may offer subject matter competence. Please see the program coordinator if you are interested in a single subject teaching credential.

Master’s Program Options

The General Social Science option is a flexible interdisciplinary program which allows students to tailor a program to their specific academic or career goals, drawing on curriculum from departments in the College of Behavioral and Social Sciences, as well as History and other university programs. While possibilities are varied, some examples include focusing on student services administration, public policy evaluation, and history/government/world affairs.

The Social Science Education option is designed primarily for primary and secondary teachers by expanding their knowledge of history, social science and international studies subject matter, to broaden their teaching methodology and develop their leadership abilities.

Total Course Requirements
for the Bachelor's Degree: 120 units

See “Requirements for the Bachelor’s Degree” in The University Catalog for complete details on general degree requirements. A minimum of 40 units, including those required for the major, must be upper division.

A suggested Major Academic Plan (MAP) has been prepared to help students meet all graduation requirements within four years. Please request a plan from your major adviser or view it and other current advising information on the CSU, Chico Web.

General Education Requirements: 48 units
See “General Education Requirements” in The University Catalog and The Class Schedule for the most current information on General Education Requirements and course offerings. The course requirements marked below with an asterisk (*) may also be applied toward General Education.

Cultural Diversity Course Requirements: 6 units
See “Cultural Diversity” in The University Catalog. Most courses taken to satisfy these requirements may also apply to General Education.

American Institutions Requirement: 6 units
See the “American Institutions Requirement” under “Bachelor’s Degree Requirements.” This requirement is normally fulfilled by completing HIST 130 and POLS 155. Courses used to satisfy this requirement do not apply to General Education.

Literacy Requirement:
See “Mathematics and Writing Requirements” in The University Catalog. Writing proficiency in the major is a graduation requirement and may be demonstrated through satisfactory completion of a course in your major which has been designated as the Writing Proficiency (WP) course for the semester in which you take the course. Students who earn a grade of C- required to repeat the course and earn a C- or better to receive credit. See The Class Schedule for the designated WP courses for each semester. You must pass ENGL 130 (or its equivalent) with a C- or better before you may register for a WP course.

Electives Requirement:
To complete the total units required for the bachelor's degree, select additional elective courses from the total university offerings. You should consult with an adviser regarding the selection of courses which will provide breadth to your university experience and possibly apply to a supportive second major or minor.

Grading Requirement:
All courses taken to fulfill major course requirements must be taken for a letter grade except those courses specified by the department as Credit/No Credit grading only.

Advising Requirement:
Advising is mandatory for all majors in this degree program. Consult your undergraduate adviser for specific information.

Honors in the Major

Honors in the Major is a program of independent work in your major. It involves 6 units of honors course work completed over two semesters. Your honors work will be recognized at your graduation, on your permanent transcripts, and on your diploma. It is often accompanied by letters of commendation from your mentor in the department or the department chair. Most importantly, however, the Honors in the Major program allows you to work closely with a faculty mentor in your area of interest on an original performance or research project. This year-long collaboration allows you to work in your field at a professional level and culminates in a public presentation of your work. Students sometimes take their projects beyond the university for submission in professional journals, presentation at conferences, or competition in shows; such experience is valuable for graduate school and later professional life.

Some common features of Honors in the Major program are:

1. You must take 6 units of Honors in the Major course work. At least 3 of these 6 units are independent study (499H) as specified by your department. You must complete each class with a minimum grade of B.
2. You must have completed 9 units of upper-division course work or 21 overall units in your major before you can be admitted to Honors in the Major. Check the requirements carefully, as there may be specific courses that must be included in these units.
3. Your cumulative GPA should be at least 3.5 or within the top 5 percent of majors in your department.
4. Your GPA in your major should be at least 3.5 or within the top 5 percent of majors in your department.
5. Most students apply for or are invited to participate in Honors in the Major during the second semester of their junior year. Then they complete the 6 units of course work over the two semesters of their senior year.
6. Your honors work culminates with a public presentation of your Honors project.

While Honors in the Major is part of the Honors Program, each department administers its own program. Please contact your major department or major adviser for further information.

INTERNSHIP POLICY

With the approval of the appropriate academic adviser, it is possible to enroll for academic credit in an internship course which is related to your program of study in the Social Sciences. Internships are permitted or required in about half of the Social Science Depth fields, all of the minors described below, and in the Social Science MA program. In some cases, internships may be repeated for credit more than once.

The general guidelines for internships in the undergraduate and graduate Social Science and Special Programs includes appropriate class standing, the completion of an appropriate amount of program course work prior to the internship, working approximately 135 hours for each 3 units of credit, the submission of a written proposal to the faculty supervisor describing the job duties and educational objectives associated with the internship, demonstration that the host agency/location is willing to accept the intern and that the duties are acceptable to them, have submitted to the faculty supervisor an evaluation of the intern’s work by the agency/location supervisor, and submit to the faculty supervisor a paper of adequate length which describes the character of the internship and its relationship to the academic program within which the student is working. Graduate internships require graduate standing, the demonstration that the quality of experience merits graduate credit, and demonstration that the internship fits into the overall graduate program.

THE SINGLE SUBJECT TEACHING CREDENTIAL IN SOCIAL SCIENCE

Course Requirements for the Single Subject Teaching Credential: 57-60 units

In most majors, candidates for this credential will normally fulfill the single subject matter preparation program by completing the appropriate education option in the major. Any exceptions to this procedure are noted at the end of this section. In addition to the single subject matter preparation program, completion of an additional professional education program is required to qualify for a California teaching credential. Professional education (credential) programs are available through the School of Education. For prerequisites and other admission requirements to professional education programs, see the “Education” chapter of this catalog.

Your departmental credential adviser is responsible for verifying that the subject matter preparation program has been completed. If you are interested in obtaining a teaching credential, confer with the appropriate credential early in your university career. Department credential advisers can assist you in planning an educational program that meets both major and credential requirements.

Subject matter preparation requirements are governed by federal and state legislative action and approval of the California Commission on Teacher Credentialing. Requirements may change between catalogs. Please consult with your departmental credential adviser for current information.
Social Science and Special Programs

Because of changing state and federal regulations, the Social Science credential program is under review. Please see an advisor for the Social Science program for further information about the current status of the Social Science Credential Waiver Program. The advisor can assist you with a list of course work and other requirements needed to complete this program.

The Master of Arts in Social Science

Course Requirements for the Master's Degree: 30 units

Continuous enrollment is required. A maximum of 9 semester units of transfer credit may be applied toward the degree.

Graduate Time Limit: All requirements for the degree are to be completed within five years of the end of the semester of enrollment in the oldest course applied toward the degree. See “Graduate Education” in The University Catalog for complete details on general degree requirements.

Students select either the Option in General Social Science or the Option in Social Science Education within the MA in Social Science.

The Option in General Social Science is designed for professionals having unique curricular needs within the behavioral and social sciences. It offers optimal flexibility in designing an individualized program specializing in an area related to behavioral and social sciences. The student can pursue a specific interdisciplinary theme, topic, or problem. The student is responsible for designing the course of study in conjunction with the graduate advisory committee and subject to the approval of the Graduate Coordinator.

The Option in Social Science Education is primarily designed to serve teachers in elementary and secondary education by expanding their knowledge of history, social science, and international studies subject matter and to broaden their teaching methodology.

Prerequisites for Admission to Conditionally Classified Status:

1. Satisfactory grade point average as specified in “Admission to Master’s Degree Programs” in The University Catalog.
2. Approval by the department and the Office of Graduate Programs.
3. An acceptable baccalaureate from an accredited institution, or an equivalent approved by the Office of Graduate Studies. If the applicant's previous work is deficient in the social sciences, the applicant may be required to take some prerequisite courses as appropriate to the program of study.

Prerequisites for Admission to Classified Status:

In addition to any requirements listed above:

1. Completion of at least one of the following:
   (a) A grade point average of 3.0 or better in the last 60 units of course work taken.
   (b) A cumulative undergraduate grade point average of at least 3.0.
   (c) A Miller Analogies Test raw score of 50 or more.
   (d) A minimum combined score of 800 on the verbal and quantitative portions of the Graduate Record Examination.
2. Recent completion of a research methods course appropriate to the program of study (consult Graduate Coordinator) with a grade of B or better. For the Option in Social Science Education, completion of SOSC 651 or HIST 693, with a grade of B or better, is required.
3. Formation of the graduate advisory committee, composed of at least two faculty members, in consultation with the Graduate Coordinator.
4. Development of an approved program in consultation with the graduate advisory committee and the Graduate Coordinator, including a statement of the student's interest in the special program being proposed, previous academic training, other relevant experience, and a description of the particular theme, topic, or problem the student proposes to study. For the Option in General Social Science, the Graduate Coordinators from the departments involved in the program must also sign the program concept. If the relevant departments do not have graduate programs, the Department Chairs must sign the program concept.

Advancement to Candidacy:

In addition to any requirements listed above:

The student must have classified graduate standing and must have completed at least 9 units of the proposed program at the university.

Requirements for the MA in Social Science:

Completion of all requirements as established by the Social Science graduate committee, the graduate advisory committee, and the Office of Graduate Studies, to include:

1. Completion of an approved program consisting of 30 units of 400/500/600-level courses as follows:
