Why Major in Anthropology?

There is perhaps no single field of study that can better prepare students to cope with the challenges of the 21st century than anthropology. Confronted with increasing global population, rapid technological change, rising tides of nationalism, and economic globalization, many look to the future with uncertainty. Anthropology provides understanding and answers based on a century of exploring the development of human nature, society, and culture. It is the only social science that seeks to understand both human biological and cultural variation in the past and the present. Encompassing a wide range of subjects spanning cultural and linguistic anthropology, physical anthropology, archaeology and museum studies, Anthropology is unique among the many fields that study humanity.

The BA, MA, and Honors programs in anthropology have been developed to provide the student with a broad perspective on human biological and cultural development. This is achieved through course work in human biology and evolution, archaeology and prehistory, linguistics, folklore, and contemporary peoples in Western and non-Western cultures. Emphasis is placed on the acquisition of practical methodologies and analytical skills unique to the discipline. The Department of Anthropology creates a true learning community where excellent facilities are combined with close personal contact between students and faculty.

If you seek a major that will not only open up significant employment opportunities but also provides a sense of meaning and purpose in your life, consider majoring in anthropology. It leads to a more sophisticated, historically and scientifically grounded understanding of the relationship of human beings to the natural world, past and present. Anthropology majors develop an awareness gained through instruction and practical experiences of how culture shapes and reshapes our understanding of human problems and possibilities. Anthropology students are perhaps most distinguished by the realization that there are many ways of engaging in the human experience, each equally valid.

What Can You Do with an Anthropology Degree?

Anthropology is an eminently practical major for those seeking a liberal education leading to a broad spectrum of career opportunities. Beyond the more traditional teaching and research trajectories, anthropology majors may select a course of study to suit them equally well for either examining the social impacts of a new federal program, or searching on a remote hillside for ancient artifacts. Anthropology majors are finding positions in business, public and private agencies, education, museums, and public health programs. The Department of Anthropology offers four applied anthropology certificate programs.

Certificate Programs

The Certificate in Cultural Resource Management program prepares individuals for careers in the conservation, preservation, and management of heritage resources located on public and private lands. Emphasis is placed upon acquisition of archaeological field skills and knowledge of federal and state requirements. Employment opportunities are plentiful.

The Certificate in Forensic Identification fosters student interest in applying scientific knowledge and skills of the physical anthropologist to legal issues (i.e., in an area of the forensic sciences). This program promotes both the development of important methods such as human skeletal identification and assessment in collaborative involvement with local law enforcement agencies.

The Certificate in Museum Studies prepares individuals for careers in municipal, county, and historical society museums, and state and federal interpretive centers. Emphasis is placed upon curatorial research and the design, preparation, and installation of exhibits.

The Certificate in Applied Cultural Anthropology prepares individuals for careers in private businesses and public agencies in the U.S. and abroad. Emphasis is placed upon identifying culturally related problem areas, research design, collecting and analyzing data, and policy analysis.

The Bachelor of Arts in Anthropology

Total Course Requirements for the Bachelor's Degree: 120 units

See "Requirements for the Bachelor's Degree" in the University Catalog for complete details on general degree requirements. A minimum of 40 units, including those required for the major, must be upper division.

General Education Requirements: 48 units

See "General Education Requirements" in the University Catalog and the Class Schedule for the most current information on General Education Requirements and course offerings. The course requirements marked below with an asterisk (*) may also be applied toward General Education.

Cultural Diversity Course Requirements: 6 units

See "Cultural Diversity" in the University Catalog. Most courses taken to satisfy these requirements may also apply to General Education.

American Institutions Requirement: 6 units

See the "American Institutions Requirement" under "Bachelor's Degree Requirements." This requirement is normally fulfilled by completing HIST 130 and POLS 155. Courses used to satisfy this requirement do not apply to General Education.

Literacy Requirement:

See "Mathematics and Writing Requirements" in the University Catalog. Writing proficiency in the major is a graduation requirement and may be demonstrated through satisfactory completion of a course in your major which has been designated as the Writing Proficiency (WP) course for the semester in which you take the course. Students who earn below a C– are required to repeat the course and earn a C– or better to receive WP credit. See the Class Schedule for the designated WP courses for each semester. You must pass ENGL 130 (or its equivalent) with a C– or better before you may register for a WP course.

Elections: 9 units

3 courses selected from:

Any upper-division Anthropology (ANTH) courses selected in consultation with your advisor.

Electives Requirement:

To complete the total units required for the bachelor's degree, select additional elective courses from the total University offerings. You should consult with an advisor regarding the selection of courses which will provide breadth to your University experience and possibly apply to a supportive second major or minor.

Grading Requirement:

All courses taken to fulfill major course requirements must be taken for a letter grade except those courses specified by the department as Credit/No Credit grading only.

Advising Requirement:

Advising is mandatory for all majors in this degree program. Consult your undergraduate advisor for specific information.
Honors in the Major

Honors in the Major is a program of independent work in your major. It involves six units of honors course work completed over two semesters. The Honors in the Major program allows you to work closely with a faculty mentor in your area of interest on an original research or honors project. This year-long collaboration allows you to work in your field at a professional level and culminates in a public presentation of your work. Students sometimes take their projects beyond the University for submission in professional journals, presentation at conferences, or competition in shows. Such experience is valuable for graduate school and later professional life. Your Honors work will be recognized at your graduation, on your permanent transcript, and on your diploma. It is often accompanied by letters of commendation from your mentor in the department or the department chair.

Some common features of Honors in the Major program are:
1. You must take 6 units of Honors in the Major course work. At least 3 of these units are independent study (399, 499H) as specified by your department. You must complete each class with a minimum grade of B.
2. You must have completed 9 units of upper-division course work or 21 overall units in your major before you can be admitted to Honors in the Major. Check the requirements for your major carefully, as there may be specific courses that must be included in these units.
3. Your cumulative GPA should be at least 3.5 or within the top 5% of majors in your department.
4. Your GPA in your major should be at least 3.5 or within the top 5% of majors in your department.
5. Most students apply for or are invited to participate in Honors in the Major during the second semester of their junior year. Then they complete the 6 units of course work over the two semesters of their senior year.
6. Your honors work culminates with a public presentation of your honors project.

While Honors in the Major is part of the Honors Program, each department administers its own program. Please contact your major department or major advisor to apply.

The Master of Arts in Anthropology

Course Requirements for the Master’s Degree: 30 units
Continuous enrollment is required. A maximum of 9 semester units of transfer and/or CSU Chico Open University course work may be applied toward the degree.

Graduate Time Limit:
All requirements for the degree are to be completed within five years of the end of the semester of enrollment in the oldest course applied toward the degree. See “Graduate Education” in the University Catalog for complete details on general degree requirements.

A Museum Studies option is available under the MA in Anthropology. See “Requirements for the MA Degree in Anthropology” for specific information.

Prerequisites for Admission to Conditionally Classified Status:
1. Satisfactory grade point average as specified in “Admission to Master’s Degree Programs” in the University Catalog.
2. Approval by the department and the Office of Graduate Studies.
3. An acceptable baccalaureate from an accredited institution, or an equivalent approved by the Office of Graduate Studies. If the applicant’s previous work is deficient in Anthropology, the applicant will be required to take courses prescribed by the graduate committee.
4. Letters of recommendation from at least two faculty members familiar with the applicant’s studies or professional persons with whom the applicant has worked.
5. Brief autobiographical sketch and statement of your goals in Anthropology.
6. A combined score of at least 1000 on the verbal and quantitative portions of the Graduate Record Examination (GRE).

Prerequisites for Admission to Classified Status:
In addition to any requirements listed above:
Demonstration of strength in the broad range of modern Anthropology in all of its subfields. This will normally be accomplished by successfully completing ANTH 301, ANTH 302, ANTH 303, ANTH 485, and ANTH 496 (or their equivalents) with a grade of B or better by passing the challenge examinations for these courses at an acceptable level.

Advancement to Candidacy:
In addition to any requirements listed above:
1. Classified graduate standing and completion at the University of at least 9 units of the proposed program.
2. Removal of all unit and course deficiencies.
3. Formation of the graduate advisory committee by the end of the semester in which classified status is granted. The committee shall consist of two voting members who are tenured or tenure-track faculty in the CSU, Chico Department of Anthropology.
4. Development of an approved program in consultation with the graduate advisory committee.
5. Successful completion of the Candidacy Examination by enrolling in ANTH 600, and writing three assigned papers, including one on socio-cultural anthropology and two on two other areas selected by the student from physical anthropology, archaeology, linguistics, and museology. This examination will be used to fulfill the literacy requirement.

Requirements for the MA Degree in Anthropology:
Completion of all requirements as established by the department graduate committee, the graduate advisory committee, and the Office of Graduate Studies, to include:

1. Completion of an approved program consisting of 30 units of 400/500/600-level courses as follows. (Note: Museum Studies option candidates will complete the prescribed course work listed below.)
   (a) At least 21 units in the discipline of Anthropology.
   (b) At least 18 of the units required for the degree in 600-level courses.
   (c) At least 18 units in graduate courses, to include ANTH 600: 9 units from ANTH 601, ANTH 602, and ANTH 603; an additional 3 units from any of the above graduate seminars except ANTH 600; ANTH 697, ANTH 699T.
   (d) Not more than 9 semester units of transfer and/or extension credit (correspondence courses and U.C. extension course work are not acceptable).
   (e) At least 9 units completed after advancement to candidacy.
   (f) Not more than 15 units taken before admission to classified status.
   (g) Not more than 4 units of Independent Study (697); 1 to 3 units of Thesis (699).
2. Completion and final approval of a research thesis of adequate scope and depth, which must be approved by the graduate advisory committee. Graduate students must submit the final version of the thesis to the Graduate Coordinator no later than the end of the eighth week of the semester in which they intend to graduate.
3. Satisfactory completion of a comprehensive final oral examination in the field of study. All candidates are required to take an oral examination of two hours’ duration. The examination will cover the student’s course work and area of specialization. In addition, the candidate is expected to be prepared to defend the thesis.
4. Approval by the department graduate committee and the Graduate Coordinators Committee on behalf of the faculty of the University.

The Option in Museum Studies
