Mobility Limitation Documentation Guidelines

The following guidelines are provided in the interest of assuring that the documentation is appropriate to establish the student as an individual with a disability and to provide a rationale for reasonable accommodations. These guidelines are consistent with the [CSU Policy on Provision of Services to Students with Disabilities](#).

Mobility limitation: Limitation in locomotion or motor functions that indicates a need for accommodations, support services, or programs. Included in this category are persons who have asthma, cardiovascular problems, or other physical limitations that restrict the ability to function without accommodation in the campus environment.

Verification of Mobility Limitation:

Documentation shall be provided by a verifying professional qualified to assess the nature and extent of mobility impairment, including a licensed physician, or orthopedist.

Evaluation must be current. Since assessment constitutes the basis for determining reasonable accommodations, it is in a student's best interest to provide verification that reflects current level of functioning.

Type of Documentation:

You may submit a letter from your physician on letterhead stationary which addresses the areas above or you may choose to use the [Disability Verification form](#).

If a disability is obvious and apparent, written documentation may not be necessary.
