Art Education Exit Portfolio Information

Before prospective candidates for the single subject teaching credential are recommended to a credential program, they are required to present an exit portfolio demonstrating breadth and depth of subject matter competency.

Students completing the Art Education Option are to complete an exit portfolio requirement. The portfolio is to be assessed by the Subject Matter Preparation Advisory and Assessment Committee, according to completion and accuracy of required content, and presentation of the materials. For those planning to apply to the credential program, the completed portfolio is due at the beginning of the semester of application, or no later than the beginning of the last semester before graduation.

The portfolio is submitted to the Art Department Credential Advisor for review. The student should be collecting materials for the portfolio throughout the undergraduate years up to the time of submission. Students should discuss progress in regard to the portfolio with the credential advisor each semester throughout their enrollment in the option.

For more information regarding the Exit Portfolio, see the following page.
