

ATI Chico State Campus Plan 2012-2013

Introduction

Accessibility to information technology resources-such as web-based materials, programs and services- is mandated by federal and state law, including Sections 504 and 508 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and Section 11135 of the California Government Code. The CSI and its campuses (including Chico State) are required to comply with these laws, and it is the policy of the CSU to make information technology resources and services accessible to all CSU students, faculty, staff and the general public regardless of disability. CSU Executive Order 926 (<http://www.calstate.edu/EO/EO-926.html>) went into effect on January 1, 2005. The policy is a result of Recommendation #1 of the CSU Trustee Audit Disability Support and Accommodations Report Number 02-033 and is a compilation of statewide-related policies and procedures for disability support and accommodations. In addition, the executive order formalizes and documents responsibilities for the oversight of system-wide activities, including policy and procedural development and compliance and monitoring.

Ensuring the accessibility of information technology and resources at Chico State is a shared responsibility that is spread across the campus and will require on going, overall institutional attention, and commitment for its success. Chico State has committed existing resources to facilitate and support campus compliance.

Beyond awareness and the spirit of compliance driven legislation and mandates, non-compliance may incur costly legal penalties and tougher sanctions against the University based on recent experiences by other colleges and universities. It should be noted that “after the fact” and reactive sanctions have impacted campus productivity and required costly intervention to mitigate.

The ATI Campus Plan serves to reflect planned work on the ATI Goals and Success Indicators. Because technology is constantly improving, expanding and increasing in scope; ensuring accessibility requires continuous attention. As such, the ATI Campus Plan will be revised annually to reflect the assessment and measurement of progress toward meeting the broad ATI goals from AA-2013-03, as well as, set campus task priorities.

ATI Steering Committee:

Drew Calendrella, VPSA/ATI Executive Sponsor

Michael Schilling, VPIR/ATI Executive Sponsor

Sandy Parsons, ARC Director/ATI Project Manager/ADA Coordinator

Brooks Bank, IR/ATI Executive Sponsor Delegate

Jeremy Olguin, Alternate Media Coordinator, IM Chair

Tony Dunn, Information Resources/Web Content Coordinator/Web Chair

Sara Rumiano, Director of Contract and Procurement Services /Procurement Chair

Bill Loker, Dean Undergraduate Studies

Russ Mills, Chair of Academic Senate

The ATI Project Manager convenes campus wide ATI Steering Committee meetings twice each year.

The ATI Steering Committee coordinates decisions for campus participation in system wide ATI events and activities and directs campus ATI planning and monitoring efforts.

All meeting minutes are found on the CSU Chico ATI website www.csuchico.edu/ati

Web-1. CSU ATI Accessibility Requirements and Process	<p>The goal is to improve the accuracy and consistency of web accessibility evaluation across the campuses by providing a standardized set of automated and manual testing criteria.</p> <ul style="list-style-type: none"> • Mapping Section 508 Standards and CSU Manual Testing Requirements to WCAG 2.0 AA Guidelines • Add testing and remediation information for each requirement • Integrate CSU requirements into Compliance Sheriff tool • Provide system-wide training for the new requirements and process 	<ul style="list-style-type: none"> • Standardize the web evaluation requirements across the system to improve quality and consistency of web evaluation. • Cost-savings in staff time because both manual and automated testing are consolidated including access to testing and remediation resources • Most campuses need a repository for all web evaluation documents, both automated results and manual results 	<ul style="list-style-type: none"> • Goal 1.0 Web Accessibility Evaluation Process - Success Indicators (1.4, 1.5, 1.6). The requirements and accompanying process clearly establish the CSU criteria for evaluating website accessibility. The requirements clarify the manual website evaluation and familiarize campus members with web accessibility process • Goal 2.0 New Website/Web Application and Digital Content Design and Development Process Success Indicators (2.1, 2.2, 2.3) – The requirements include links to resources that can be used during the development process to design in accessibility. Testing process will include development level testing. • Goal 3.0 Ongoing Monitoring Process- Success Indicators (3.6, 3.7, 3.8, 3.11) The ATI Requirements include checkpoints that locate all media files that 	<p>Standardized requirements have been deployed to campuses. Feedback has been collected and requirements are currently undergoing minor revisions.</p> <p>Two systemwide training sessions have been held.</p> <p>Campuses are urged to adopt the requirements.</p> <p>A text version of the ATI Accessibility Requirements and the recorded trainings are posted in the Web Accessibility section of Moodle</p> <p>Next Steps: The Universal Design Center at CSUN is enhancing and maintaining the requirements. Web-2. Compliance Sheriff Implementation Process	The goal is to implement the tool such that all levels of campus personnel are able to develop and test accessible content. This means that access to the web evaluation tool would be rolled out to a broad user base.	<ul style="list-style-type: none"> • Cost/time savings personnel check their web posting and fix errors • Increase utilization of the web evaluation tool • higher degree of accessibility when web pages are published 	<ul style="list-style-type: none"> • Goal 2.0 New Website/Web Application and Digital Content Design and Development Process – Success Indicators(2.1, 2.2,2.3) • Goal 3.0 Ongoing Monitoring Process- Success Indicators (3.2, 3.3) Broader use of the tool during development will promote “designed in” accessibility, accessible coding techniques and broader Section 508 awareness. 	HiSoftware has completed a new beta version of the Compliance Sheriff tool that integrates in the roles and permissions requested by the CSU. Cal Poly SLO is currently testing the beta version. Next Steps: complete the testing and provide training to campuses
Web-3. Compliance Sheriff Systemwide contract	The goal is provide campuses with an enterprise level web accessibility evaluation tool to streamline the accessibility testing process	<ul style="list-style-type: none"> • Increase Web accessibility testing efficiency and accuracy • Reduce tool cost by purchasing as a system 	<ul style="list-style-type: none"> • Goal 1.0: Web Accessibility Evaluation Process: Identify and repair or replace inaccessible websites, web applications, and digital content. Success Indicators (1.2, 1.3, 1.7, 1.17) All websites can be inventoried in the tool, reports can be mailed to the appropriate persons, and all testing documentation is stored in one place. 	21 campuses opted into the contract which will deliver a \$300,000 systemwide savings over 3 years. The ATI Staff will continue to work with the vendor to improve the tool – see projects Web-1 & Web-2

Instructional Materials

Name	Description/Deliverables	Drivers	Relationship to Annual Report Success Indicators	Current Status
IM-1. Center for Accessible Media	This project provides a web-based application for alternate media production staff to centrally list and share instructional materials that have been converted for use by persons with disabilities.	<ul style="list-style-type: none"> Reduction in redundant conversion and editing Cost-savings from effort reduction Faster time-to-delivery for students 	<ul style="list-style-type: none"> 1.2 (Capacity for timely adoption). Sharing accessible IM resources increases campus capacity for timely adoption of accessible IM. 	CAM lists ~23,000 titles and facilitated 1,600 campus-to-campus exchanges in 11/12.
IM-2. Captioning Services Contract	This project provides a system-wide contract for transcription and captioning services.	<ul style="list-style-type: none"> Generate cost-savings via bulk purchasing Provide a high-quality pre-vetted vendor for these critical services 	<ul style="list-style-type: none"> 5.4 (Campus has built capacity for addressing accessible multimedia). IM-6. Captioning guidelines	This project will develop and issues guidance on recommended practices and priorities for captioning multimedia. This guidance will build on earlier drafts that were incomplete at the time of ATI staff reductions in 2010.	<ul style="list-style-type: none"> • There is large and growing volume of multimedia materials that are not captioned. • Campuses have finite resources to devote to this costly activity.. • There is interest in sharing recommended practices and tools. 	<ul style="list-style-type: none"> • 5.1, 5.2, 5.3, 5.5 (multimedia accessibility requirements). Guidance on prioritizing captioning services will help campuses target the highest impact content. Recommended practices and toolsets will improve efficiency, build capacity, and allow measurement of progress. 	Workgroup was convened and conducted campus survey of current captioning practices Next Steps: Present survey findings; draft campus guidelines
IM-7. Textbook Rentals guidance	This project is designed to help CSU campuses implement business practices that ensure students with disabilities have equal opportunity to participate in textbook rental programs. Emphasis will be placed on developing and disseminating authoritative guidance, information, and resources	<ul style="list-style-type: none"> • Textbook rental programs are growing rapidly • Current laws require students to ‘purchase’ a title before the Disability Services office may request an unlocked electronic copy from the publisher • Publishers have started to reject such requests if a receipt shows that the student rented the title 	<ul style="list-style-type: none"> • 1.2 (Capacity for timely adoption). Campuses that implement appropriate textbook rental program business processes will shorten alt media request processes, reduce the number of books that require conversion, and improve timeliness of delivery for IM. 	Guidance document has been drafted and is currently being edited. Next Steps: Release guidance document

Procurement

P-1. Standardizing the accessibility components of the procurement process:	The goal of this project is to offer campuses a process that will that will integrate ATI requirements into the procurement process and can be adopted across the system. Each campus will be able to use the templates, adopt timelines, accomplish testing, and create an equally effectively access plan.	<ul style="list-style-type: none"> • Campuses have consistently noted deficiencies in the accessible procurements area. 	<ul style="list-style-type: none"> • This is a very large project that affects many success indicators. Please see the sub-projects listed below. 	
P-1.1. Standardizing the accessibility components of the procurement process: Equally Effective Alternative Access Plan	Create an EEAP process and an EEAAP template that contains all the components necessary for effective and efficient handling of products that have accessibility gaps.	<ul style="list-style-type: none"> • EEAAP was a particularly low rated area in the ATI Annual Procurement report 	<ul style="list-style-type: none"> • Goal 4.0 – Equally Effective Access Plans; Success Indicators (4.1,4.2,4.3,4.4) 	Equally Effective Access Plan Template (EEAAP) deployed Fall/2011. Next Steps: Continue working on EEAAP process.
P-1.2. Standardizing the accessibility components of the procurement process: Market Research	Create a market research process and template.	<ul style="list-style-type: none"> • Campuses report that they do not have a process to capture and archive the market research information relating to purchasing the most accessible product. 	<ul style="list-style-type: none"> • Goal 1.0 Procurement Procedures; Success Indicators (1.5, 1.6) • Market research is part of the accessible product purchasing process. 	Market Research template in development Next Steps: Complete the template and plan Market Research template pilot.

<p>P-1.3. Standardizing the accessibility components of the procurement process: Improved RFP and contracting language</p>	<p>Improve RFP and contracting language for accessible product purchases.</p>	<ul style="list-style-type: none"> • Increase vendor accountability for providing accurate accessibility information during the bidding process • Product Accessibility gaps should be included in the contract with timelines for fixes and known workarounds provided by the vendor. 	<ul style="list-style-type: none"> • Goal 3.0 Exemptions Process(3.4) • Goal 1.0 Procurement (1.5, 1.6) • The improved RFP and contract language will support the accessible purchasing process by putting more responsibility on the vendor to deliver accurate accessibility language and ultimately a more accessible product. Properly crafted contract language will support a follow-up process to ensure that accessibility gaps are addressed by the vendor. 	<p>The ATI is currently piloting new RFP and contracting language that includes accessibility follow-up with vendors following purchases.</p> <p>Next Steps: Present language to ATI constituencies for comment</p>
