Summer 2019 NSF-REU Program
Undergraduate Research Opportunities at the Interface of Computational and Experimental Chemistry

Students looking for an exciting interdisciplinary research experience encompassing many aspects of computational and experimental chemistry are invited to apply for the Summer 2019 NSF-REU program at the University of North Texas. The ten-week program will begin June 3, and participants will be given a $5,000 stipend, plus housing. Funds are available to help defray travel costs to and from the REU site, which is located at the northern outskirts of the Dallas-Ft. Worth area.

Possible Research Areas Include:

Application forms and additional information on this program are available by visiting https://nsfreu.chemistry.unt.edu/

Applications for the program are due by **February 15, 2019** and should be submitted online.
