Hi Child Development majors. I hope that you are all healthy and comfortable. I am sure it is difficult to focus on your coursework right now with so much uncertainty. We understand. Child Development faculty and staff want to help where we can. If you have questions about your current classes and coursework for this Spring 2020 semester, reach out to your course instructor. You can email me, the Child Development advisor, or the Child Development office for general questions, enrollment issues, or special circumstances.

Tutors are available to set up Zoom tutoring sessions Sunday through Friday. This is hosted by our college; we are fortunate that one of the tutors, Cassity, is a Child Development major. To access this resource, email BSSTutor@csuchico.edu to set up an appointment. Email support is available to proof read a paper or ask questions.

Summer 2020 enrollment is underway (CHLD 252, CHLD 321, and CHLD 333W are offered), and Fall 2020 enrollment is just around the corner. You should receive your appointment for Fall 2020 registration by Friday of this week; enrollment opens on Monday April 20th. If you have worked with a CHLD advisor during this academic year and do not need to make changes to your plan, follow your Smart Planner for enrolling in your CHLD coursework.

If you have not created a Smart Planner with a Child Development advisor, you are strongly encouraged to do that before registering for Fall 2020 courses. Most CHLD major advising can be completed via email; you should receive a response to your email request for advising within two days. If you would like to meet online with a CHLD advisor, email to arrange a Zoom appointment.

Zoom CHLD drop in advising appointments will be available Monday, Tuesday, and Wednesday from 10 am - 2 pm for the remainder of the semester. You can access Zoom drop in advising through your Zoom account with the ID number below.

**Meeting ID: 310-641-067**

The CHLD advisor will be available during this time to work with students one at a time. There is a waiting room if an advising session is in session when you log in; students are seen in the order they arrive.

For a successful Fall 2020 registration, make sure all holds are removed from your account, register at your scheduled time, and make sure you pass your pre-requisite courses. Academic Advising is available remotely for questions regarding General Education. If you are scheduled to take a CHLD course and the course is full when you register, put yourself on the waiting list and email the CHLD office.

We remain committed to your success. Please let us know if we can be of help.

Stay safe and help others.

Cindy Ratekin, Ph.D.
Child Development Advisor
