

Week 11 Child Development Announcements

Spring 2023 registration has opened, and everyone is now able to register for classes. If you have not signed up for your spring 2023 classes, please do so ASAP. Start by checking your smart planner in your student center to see what classes you are advised to take. Also, a very important step is to make sure you clear all your holds on your account. You will not be able to enroll in your classes until all holds have been cleared!

BEING WAITLISTED IS OK!!!!

Our department purposely lowers enrollment caps and causes a waitlist to guarantee that child development majors and minors have spots in their advised classes. If the class is on your smart planner we save you a seat in the class. BUT the class NEEDS to be listed on your smart planner.

Please make sure that your smart planner is updated, you can do this by making an appointment with your advisor. **Don't panic; registration stays open until November 18th**, there is still plenty of time to update your smart planner and get enrolled in the correct classes.

If you need a Developmental Periods class, CHLD 350 Prenatal and Infant Development: Advanced still has plenty of seats open. If you need a Depth Core class, CHLD 456 Administration of Child Dev Programs: Advanced still has available seats (units count toward the Child Development Permit for a site supervisor).
