CSU Auxiliary Organization Association (AOA) Seeks Nominations for \$5,000 Student Scholarship

Each year the [CSU AOA](#) funds a Scholarship of Excellence for a current CSU student. Applications for this year's scholarship are now being accepted through October 14. We have amazing students at Chico and you may know a student who would qualify for nomination.

The basis for the scholarship is a combination of academic excellence and service to the campus or community, particularly to a CSU auxiliary or a nonprofit organization. Ideal candidates should be able to demonstrate a history of service to auxiliary organizations at their campus of origin or throughout the California State University system. Examples include but are not limited to, serving as a member of an auxiliary organization governing board, volunteering time for a community service nonprofit organization, conducting scholarly research on an externally awarded contract or grant, promoting the mission of an auxiliary organization through committee or volunteer work, or by serving as an elected or appointed student leader.

Applications will be accepted from each of the California State University (CSU) Auxiliary member organizations. Chico State Enterprises (CSE) is a member organization. Student applicants may self-nominate.

Consider nominating one of our amazing Chico State students! Please see the [AOA Scholarship Announcement](#) for full details and link to the online application.
