CSU Learn Compliance Courses to be Refreshed

To: All CSE Employees
From: CSE HR

Because of recent changes to federal regulations, three (3) CSU compliance courses will be offline during a portion of August so that the content can be updated. If you are “in progress” with any of the following courses, please *complete the course(s) within the next week or your progress will be lost*.

- CSU's Sexual Misconduct Prevention Program (Title IX)
- CSU's Discrimination Harassment Prevention Program for Supervisors
- CSU's Discrimination Harassment Prevention Program for Non-Supervisors

The courses will be unavailable beginning August 13, at 5:00 pm. The CSU Chancellor’s Office Learning & Development team estimate that the courses may be offline for one to two weeks, but the exact time the courses will go back online is uncertain. During this time frame you will not be able to register, launch or complete these courses. Please retry completing the courses after August 24th.

Near the end of the month, new assignments will be issued for any employees that are due to complete these trainings. Questions can be forwarded to csehr@csuchico.edu.
