Research Foundation Information Technology (RFIT) Department Moving to Campus Information Technology Support Services (ITSS)

Thursday, March 8, 2019

Research Foundation technology and system needs are closely tied to the campus network. To ensure continued protection of both campus and auxiliary IT systems, and in order to provide a more streamlined IT support experience for our users, the RFIT department responsibilities will be transitioned to campus ITSS effective May 2019. This decision has been made with great care and consideration for the RFIT staff. We thank them for the outstanding support they have provided to the Foundation over the years. The Foundation has a memorandum of understanding (MOU) with ITSS to begin the process of transitioning RFIT responsibilities. We are committed to working with ITSS to provide a smooth transition and will communicate further details as the transition progresses.

The Foundation will be conducting a survey that you will receive in the coming weeks. In order to ensure that we are best supporting your needs, we welcome your questions and feedback.

Thank you,

Research Foundation Administration

All Foundation Project Directors and those authorized to sign on Foundation Accounts receive announcements via email. If you are no longer a project director and would like your name removed or wish to add administrative staff to the list, please reply to this message with appropriate instructions
