CALL FOR APPLICATIONS

CSU STEM-NET FACULTY FELLOW

Deadline to apply: 8 am, March 5, 2024

Full-time tenured or tenure-track faculty with a disciplinary association with science, technology, engineering, or math (STEM) and who are active disciplinary and/or pedagogical scholars are invited to apply for the **STEM-NET Faculty Fellows program**.

The CSU currently has ten multi-campus consortia that conduct collaborative activities in research and education on a breadth of topics. STEM-NET constitutes the most extensive of consortia since all 23 campuses are members. The expectation is that STEM-NET will eventually be self-funded through grants and contracts.

The **STEM-NET vision** is to make the CSU a worldwide leader in increasing the pipeline, preparation, graduation, and employment of outstanding, diverse STEM students. The **mission** is to enable CSU STEM leaders to share expertise and leverage system-wide opportunities to foster the implementation of global best practices in research, pedagogy, and learning as related to the STEM fields within the CSU.

This call to serve as a Faculty Fellow is to further develop the university's role with STEM-NET. In addition, it is also helping to test the benefits of STEM-NET Faculty Fellows at campuses across the CSU. In subsequent years, the nature and amounts of available funding will depend on the direction taken by the Executive Director in conjunction with the Steering Committee.

Period of appointment: **Summer 2024 through spring 2025**
Compensation: Summer 2024 stipend of $5,000 and three (3) semester units (AWTU) for each semester, fall 2024 and spring 2025.
Reporting: The faculty fellow will report to the Provost (or designee).

Responsibilities of the STEM-NET Faculty Fellow:
1. Work with key faculty to develop and submit targeted STEM-based proposals, the subject areas of which are to be determined in consultation with the Provost (or designee).
2. Develop collaborative grants (educational- and research-based) with faculty.
3. Help promote a culture of scholarship on campus.
4. Take on new initiatives designated by the Provost.

Eligibility:
Full-time tenured or tenure-track faculty with a disciplinary association with science, technology, engineering, or math (STEM) and who are active disciplinary and/or pedagogical scholars.

How to Apply:
Please provide a brief cover letter (4 pages maximum) that summarizes your background and your interest for this position. Include a detailed resume, and the contact information for three references in addition to your department chair.

Please submit your cover letter, resume and references to the Chico State Provost Office at academicaffairs@csuchico.edu by **8 am, March 5, 2024**. Since there is a limit of one Faculty Fellow nomination per institution, the Provost (or designee) will evaluate each application and select one to nominate to the STEM-NET Steering Committee.

Key Dates:

Deadline to apply:	**8 am, March 5, 2024**
Provost announcement of the application selected for nomination to the STEM-NET Steering Committee:	March 8, 2024
