This publication includes deadline dates for the month of July 2024 and late announcements for the months of June 2024 and May 2024. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

**Program:** AMS Subventions for Publications, Awards, and Research and Travel Grants

**Agency:** American Musicological Society

**Next Deadline:** Jul 01, 2024

Supports individuals with expenses involved in the publication of works of musical scholarship. Goal is to defray costs not covered by publishers. Proposals that utilize newer technologies are encouraged. AMS Subventions for Publications awards range from $500 to $2,500 each (annual deadline: 2/15, 8/15). AMS 75 Subventions provide up to $5,000 for first books from early career scholars (annual deadline: 2/15, 8/15). Various awards for outstanding research and publications in music (annual deadlines: 4/1, 8/15). Also provides small Travel and Research Grants (annual deadlines: 4/1, 8/15). --------------------------------------------

**Program:** German Studies Research Grants and Stays

**Agency:** DAAD: German Academic Exchange Service

**Next Deadline:** May 01, 2024 (tentative)

Provides grants to promote the study of cultural, political, historical, economic and social aspects of modern and contemporary German affairs from an inter- and multi-disciplinary perspective. Candidates must be nominated by department and/or program chairs. Master's level candidates are eligible. Grants are restricted to citizens of the U.S. who are enrolled full time at the university that nominates them. Annual deadlines: German Studies Grant (5/1, 11/1); Research Stays of 7 to 12 months (5/15, 10/16); Short Term Grants (5/24, 11/3)

Other grants available with varying deadlines. See https://www.daad.org/en/find-funding/phd-postdocs/

--------------------------------------------

**Program:** Institutional Grants

**Agency:** Japan-United States Friendship Commission

**Next Deadline:** Jul 01, 2024

Supports reciprocal research programs between the U.S. and Japan, in support of the continuation of close friendship and cooperation. Awards will be made on the basis of academic or professional excellence evaluated in relation to national and cultural needs for certain professional fields; existing gaps in understanding; and availability or lack of other sources of support. Focus areas include: Exchanges and Scholarship; Global Challenges; Arts and Culture; and Education and Public Affairs. See https://www.jusfc.gov/grant_program/

**Program:** Grants for Arts Projects

**Agency:** National Endowment for the Arts

**Next Deadline:** Jul 11, 2024

Supports the creation of high quality art, public engagement with the arts, lifelong learning in the arts, and community development through the arts. Projects that are innovative or replicable are encouraged. Awards from approximately $10,000 to $100,000 are available requiring a non-federal 1:1 match. Deadlines are for step one of application process. Limited submission: one submission per organization (with some exceptions for the Media Arts discipline). Demonstrably separate components of an organization may apply. See https://www.arts.gov/grants/grants-for-arts-projects View contacts by discipline at https://tinyurl.com/hmjcengo

**Program:** Humanities Collections and Reference Resources  
**Agency:** National Endowment for the Humanities  
**Next Deadline:** Jul 16, 2024  
Grants support projects that address major challenges in preserving/providing intellectual access to humanities resources. NEH encourages digital projects that codify, unite, integrate, or aggregate humanities collections and resources. Projects may also develop a reference work or tool or integrate tools and reference works with digital collections to provide context to humanities materials and to facilitate discovery. Supports implementation awards up to $350,000 (3 years) and foundations planning awards up to $50,000 (2 years). Program: Magnet Schools Assistance
Agency: U.S. Department of Education
Next Deadline: May 13, 2024
Program provides grants to eligible LEAs (IHEs can partner) to establish and operate magnet schools that are operated under a court-ordered or federally approved voluntary desegregation plan. Magnet programs aim to eliminate, reduce, or prevent minority group isolation in elementary and secondary schools while strengthening students' knowledge of academic subjects and their grasp of marketable vocational skills. See https://tinyurl.com/y3gxfgpq and Grants.gov for CFDA 84.165.

**Program:** Undergraduate Research Training Initiative for Student Enhancement (U-RISE)

**Agency:** National Institutes of Health

**Next Deadline:** May 29, 2024

Supports the development of a diverse pool of undergraduates who complete their baccalaureate degree, and transition into and complete biomedical, research-focused higher degree programs. The program helps eligible IHEs develop and implement effective, evidence-based approaches to biomedical training and mentoring that will keep pace with the rapid evolution of the research enterprise. NIH helps define baccalaureate degree-granting research-active institutions as IHEs with an average of NIH Research Project Grant funding less than $7.5 million total costs over the last 3 fiscal years. Limited submission: one application per institution. Annual deadlines: late May through 5/28/26. See https://grants.nih.gov/grants/guide/pa-files/PAR-24-137.html

---

**Program:** Technologies for Improving Minority Health and Eliminating Health Disparities

**Agency:** National Institutes of Health

**Next Deadline:** Jun 10, 2024

FOA invites eligible small business concerns (SBCs) to submit Small Business Technology Transfer (STTR) grant applications that propose to develop a product, process or service for commercialization with the aim of improving minority health and/or reducing and ultimately eliminating health disparities in one or more NIH-defined health disparity population groups. Appropriate technologies should be effective, affordable, and culturally acceptable. IHEs may partner. Annual deadlines: mid-June and December through 12/10/26. See https://grants.nih.gov/grants/guide/rfa-files/RFA-MD-24-007.html

---

**Program:** Institutional Research Training Program

**Agency:** National Institutes of Health

**Next Deadline:** May 25, 2024

Provides support for institutional research training programs in areas relevant to the NINDS mission. These institutional research training programs should produce well-trained neuroscientists who leave the program with the research skills and scientific knowledge to make a significant contribution to neuroscience research. NINDS institutional training programs are intended to be 1-2 years in duration and support training of one or more of the following groups: dissertation stage predoctoral students in their 3rd and/or 4th year of graduate school, postdoctoral fellows and fellowship-stage clinicians. Annual deadline: 5/25 through 2026. See https://grants.nih.gov/grants/guide/pa-files/PAR-24-126.html

---

**Program:** Program Project Grant

**Agency:** National Institutes of Health

**Next Deadline:** May 25, 2024

Program seeks applications that propose to conduct innovative, interactive research to answer significant scientific questions that are important for the mission of NINDS, via a synergistic collaboration between outstanding scientists who might not otherwise collaborate. The program project grant is designed to support research in which the funding of several interdependent highly meritorious projects as a group offers significant scientific advantages over support of these same projects as individual research grants. See https://grants.nih.gov/grants/guide/pa-files/PAR-24-169.html

**Program:** NIH S10 Instrumentation Programs

**Agency:** National Institutes of Health

**Next Deadline:** Jun 03, 2024

Supports purchases of state-of-the-art commercially available instruments to enhance research of NIH-funded investigators. Instruments that are awarded are typically too expensive to be obtained by an individual investigator with a research project grant. Every instrument awarded by an S10 grant is used on a shared basis, which makes the programs cost-efficient and beneficial to thousands of investigators in hundreds of institutions nationwide. Annual deadline: early June through 2025. See https://orip.nih.gov/division-construction-instruments/s10-instrumentation-programs

Program: Autism Research Program
Agency: U.S. Department of Defense
Next Deadline: May 16, 2024
Autism Spectrum Disorder (ASD) encompasses a range of complex developmental disorders characterized by mild to severe challenges to social, emotional and communication abilities. Program supports innovative research that advances the understanding of ASD and leads to improved treatment outcomes. Focuses include improving diagnosis, treatment, and studying psychosocial factors for affecting key life time transitions to independence. FY 24 mechanisms include: Clinical Trial Award, Career Development Award, and Idea Development Award. Deadline is for required pre-applications. See https://cdmrp.health.mil/arp/default

--------------------------------------------

Program: Climate and Large-Scale Dynamics
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)

Program has two goals: to advance knowledge about the processes that force and regulate atmosphere’s synoptic and planetary circulation, weather, and climate; and to sustain the pool of human resources required for excellence in synoptic and global atmospheric dynamics and climate research. Research topics include theoretical, observational, and modeling studies of the general circulation of the stratosphere and troposphere; and synoptic scale weather phenomena. Annual deadline: proposals accepted anytime. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=11699 for details.

--------------------------------------------

Program: Arctic Research Opportunities
Agency: National Science Foundation
Next Deadline: Jul 15, 2024

Supports research about the Arctic, including field and modeling studies, data analysis, and synthesis about the arctic region. Goal is to gain better understanding of the Arctic's physical, biological, geological, chemical, social, and cultural processes, and the interactions of ocean, land, atmosphere, biological, and human systems in the Arctic. Annual deadline: 1/15 and 7/15 for Arctic Natural Sciences and Arctic Social Sciences; proposals accepted any time for Arctic System Science, Arctic Observing Network, Arctic Research Collaboration and Policy Support, and Polar Cyberinfrastructure. See https://new.nsf.gov/funding/opportunities/arctic-research-opportunities-0

Program: Facilities for Atmospheric Research and Education (FARE)
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)

FARE provides funding support to a variety of organizations to make specialized instrumentation and facilities available to the atmospheric science research community through the Lower Atmosphere Observing Facilities (LAOF) and the Community Instruments and Facilities (CIF) programs. LAOF applications are by invitation only, Annual deadline: CIF proposals accepted any time. See https://beta.nsf.gov/funding/opportunities/facilities-atmospheric-research-and-education-fare-0 for details.

--------------------------------------------

Monday, April 1, 2024  Deadlines Page 28 of 37
Program: Facility and Instrumentation Request Process (FIRP)
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports projects that require access to atmospheric observing instrumentation and facilities sponsored by the FARE Program in the Division of Atmospheric and Geospace Science. There are three funding tracks: 1) Education and Outreach; 2) Single Facility Request; and 3) Field Campaigns. Annual deadlines: proposals accepted anytime. See https://beta.nsf.gov/funding/opportunities/facility-and-instrumentation-request-process-firp for details.

Program: Geomorphology and Land Use Dynamics
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports innovative research into processes that shape and modify landscapes over a variety of length and time scales. Encourages research that investigates quantitatively the coupling and feedback among such processes, their rates, and their relative roles, especially in the contexts of variation in climatic and tectonic influences and in light of changes due to human impact. Annual deadline: proposals accepted any time. Proposals submitted to other program solicitations, such as CAREER or EAR Post-Doctoral Fellowships, should continue to meet their respective deadlines. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13690

Program: Geophysics Program
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports basic laboratory, field, theoretical, and computational research in the physics of solid earth to explore its composition, structure, and processes. Topics include seismicity, seismic wave propagation and nature and occurrence of geophysical hazards; Earth's magnetic, gravity, and electrical fields; Earth's thermal structure; geodynamics; geophysical studies of active deformation, including geodesy, and theoretical and experimental studies of Earth materials. Annual deadlines: applications accepted anytime. See http://tinyurl.com/j9gt7qy for details.

Program: Hydrologic Sciences
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports research on the fluxes of water in the environment that constitute the water cycle as well as the mass and energy transport function of the water cycle, from rainfall to runoff to infiltration and streamflow; evaporation and transpiration; the flow of water in soils and aquifers; and the transport of suspended, dissolved, and colloidal components. Studies may address physical, chemical, and biological processes that are coupled directly to water transport. Annual deadline: proposals accepted at any time. See https://tinyurl.com/4ejh576m for details.

Program: Physical and Dynamic Meteorology
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports research involving studies of cloud physics; atmospheric electricity; radiation; boundary layer & turbulence; the initiation, growth, & propagation of gravity waves; all aspects of mesoscale meteorological phenomena, including their morphological, thermodynamic, & kinematic structure; development of mesoscale systems & precipitation processes; & transfer of energy between scales. Also sponsors development of new techniques and devices for atmospheric measurements. Annual deadline: proposals may be submitted at any time. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12728 for details.

--------------------------------------------
Program: Sedimentary Geology and Paleobiology (SGP)
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports research that addresses the deep-time sedimentary crust and advances our understanding of environmental and evolutionary change. Focus areas include: the changing aspects of life, ecology, environments, and biogeography in geologic time; sedimentary lithosphere; geological processes and resources in rock sequences; dating and measuring the sequence of events and rates of geological processes; and the geologic record of the production, transportation, and deposition of modern and ancient physical and chemical sediments. Annual deadline: proposals accepted any time. See http://tinyurl.com/zkhv2kb

Program: Geobiology and Low-Temperature Geochemistry
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports research on geochemical processes in terrestrial Earth’s surface environmental systems, as well as the interaction of geochemical and biological processes. Studies may address: inorganic and/or organic geochemical processes occurring at or near the Earth’s surface now and in the past, ranging in scale from planetary and regional to mineral-surface and supramolecular; the role of life in the transformation and evolution of Earth’s geochemical cycles; surficial chemical and biogeochemical systems and cycles; mineralogy and chemistry of earth materials, and more. Program: Petrology and Geochemistry
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports basic research on the formation and evolution of Earth using petrological and geochemical characteristics of Earth materials in the crust, mantle, and core. Proposals generally address the petrology and high-temperature geochemistry of igneous and metamorphic rocks, mineral physics, economic geology, and volcanology. Proposals that bridge disciplinary boundaries or include development of analytical tools for potential use by the broad community encouraged. Annual deadlines: Proposals are accepted anytime. Program: Ceramics (CER)
Agency: National Science Foundation
Next Deadline: Jul 2024 (target date)
Supports fundamental scientific research in ceramics (e.g., oxides, carbides, nitrides and borides), glass-ceramics, inorganic glasses, ceramic-based composites and inorganic carbon-based materials. Projects should be centered on experiments; inclusion of computational and theory components are encouraged. The objective of the program is to increase fundamental understanding and to develop predictive capabilities for relating synthesis, processing, and microstructure of these materials to their properties and ultimate performance in various environments and applications. Proposals accepted any time (although 4/15 to 6/15 should be avoided). See https://tinyurl.com/2bfwwxsp for details.

**Program:** Metals and Metallic Nanostructures (MMN)  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 2024 (target date)  
Supports fundamental research and education on the relationship between processing, structure and properties of metals and their alloys. Supports experimental research while encouraging theory and computational materials science. Support includes: equilibrium, non-equilibrium and far-from equilibrium structures; thermodynamics; kinetics; diffusion; interfaces; oxidation; performance in extreme environments; recyclability; magnetic behavior; thermal transport; plastic flow; and similar phenomena. Proposals accepted any time (although 4/15 to 6/15 should be avoided). See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505922 for details.

**Program:** Solid State and Materials Chemistry (SSMC)  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 2024 (target date)  
Supports fundamental research on organic, inorganic, and hybrid materials with an emphasis on synthesis and structure-property relationship studies. SSMC projects focus on experimentally elucidating atomic and molecular underpinnings for materials development and properties of extended solid-state materials, spanning the entire range from nanoscale assemblies to the bulk. SSMC particularly encourages research encompassing multicomponent materials systems, a strong mesoscale aspect, and/or interface-related phenomena with regard to materials properties. Proposals accepted any time after 10/15/21 (although 4/15 to 6/15 should be avoided). See https://tinyurl.com/2bfwwxsp for details.

**Program:** Biomaterials (BMAT)  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 2024 (target date)  
Supports fundamental materials research related to biological materials, biomimetic, bioinspired, and bioenabled materials, synthetic materials intended for applications in contact with biological systems, and the processes through which nature produces biological material. Emphasis is on novel materials design and development and discovery of new phenomena. Projects are typically interdisciplinary and may encompass scales from the nanoscopic to the bulk. Annual deadline: proposals accepted any time after 10/15/21 (although 4/15 to 6/15 should be avoided). See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505922 for details.

**Program:** Polymers (POL)  
**Agency:** National Science Foundation  
**Next Deadline:** Jul 2024 (target date)  
Supports fundamental research and education on polymeric materials and polymer science. Portfolio is mainly experimental and diverse with components of materials science, chemistry, physics, and related disciplines. Interdisciplinarity is stressed. Central goals include advancing foundations of polymer science and pushing back the wide horizon of the field. Broad areas addressed include synthesis, molecular assembly, characterization, phase behavior, structure, morphology, and properties. Annual deadline; proposals accepted any time (although 4/15 to 6/15 should be avoided). See https://tinyurl.com/2bfwwxsp for details.

Program: Cottrell Scholar Awards
Agency: Research Corporation for Science Advancement
Next Deadline: Jul 01, 2024
Cottrell Scholar Awards provide $120,000 to early career tenure-track assistant professors in bachelor- and Ph.D.-granting departments of astronomy, chemistry, and physics. Applicant proposals must contain a research plan, an educational plan and a clear statement on how the CSA will help applicants become truly outstanding teacher-scholars and future academic leaders. Eligibility is limited to faculty members who started their first tenure-track appointment in 2021. See http://rescorp.org/cottrell-scholars/cottrell-scholar-award

**Program:** Transformative Artificial Intelligence Research and Applications Broad Agency Announcement (BAA)  
**Agency:** U.S. Department of Defense  
**Next Deadline:** Jul 2024 (target date)  
Program seeks white papers and proposals in support of new technologies and translational research-based approaches that support the identification, alignment, and exploitation of basic, applied, and advanced research and technology. Annual deadline: white papers and proposals accepted any time through 7/3/26. See https://sam.gov/opp/1e7f4a9d24f2420787a63776c1b115a0/view

**Program:** Visiting Faculty Program (VFP)  
**Agency:** U.S. Department of Energy  
**Next Deadline:** May 22, 2024  
Program seeks to increase the research competitiveness of faculty members and their students at institutions historically underrepresented in the research community in order to expand the workforce vital to DOE mission areas. Selected university/college faculty members collaborate with DOE laboratory research staff on a research project of mutual interest for 10 weeks between May and August. Faculty member participants may invite up to two students (one of which may be a graduate student), but student participation is optional. Topics vary by participating DOE laboratory.
