Grants Resource Center

Deadlines

Funding Expertise. Personally Delivered.

December 03, 2021

This publication includes deadline dates for the month of March 2022 and late announcements for the months of February 2022 and January 2022. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

Program:	White House Fellowships
Agency:	President's Commission on White House Fellowships
Next Deadline:	Jan 07, 2022

Provides 11 to 19 fellowships for gifted and highly motivated young Americans to gain experience in the processes of government. Fellows are selected on a non-partisan basis and typically spend a year working as full-time, paid special assistants to senior White House staff, the vice president, cabinet secretaries and other top-ranking government officials. Fellows also participate in an education program that includes public policy seminars and study trips. See https://www.whitehouse.gov/get-involved/fellows/ for details.

Program:	Unsolicited Grant Opportunities
Agency:	U.S. Department of Education
Next Deadline:	Mar 31, 2022

Supports unsolicited proposals for research, evaluation, statistics, and dissemination projects to provide reliable information about the condition of education, education practices that improve academic achievement, and the effectiveness of education programs. Any project that addresses these issues and is not covered under any other IES grant competition is eligible. Average award is approximately $400,000, with projects typically lasting one to three years. Deadline refers to a six-page prospectus. Annual deadline: March. See http://ies.ed.gov/funding/unsolicited.asp for details.

Program: Immunology Program

Agency: National Institutes of Health

Next Deadline: Mar 2022 *(target date)*

Supports unsolicited basic immunology investigations that focus on properties, interactions & functions of immune system cells & the substances produced by those cells. Areas of interest include: immune regulation at specialized anatomical sites; immune regulation at different stages of human development; & role of the innate immune system in regulating adaptive immunity.The overarching goal is to integrate immune research with other research disciplines. Deadlines vary by funding mechanism. Annual deadline: accepts unsolicited applications on any relevant topic. Call or email to determine interest. See https://www.niaid.nih.gov/grants-contracts/opportunities

Program: Limited Competition Emergency Awards: Shared PPE Resources for COVID-19 Related Vaccine and Treatment Clinical Trials and Clinical Studies (S10 Clinical Trial Not Allowed)

Agency: National Institutes of Health

Next Deadline: Mar 2022 *(target date)*

Provides Personal Protective Equipment (PPE) to directly support the needs of the NIAID's vaccine and treatment clinical trials and clinical studies for COVID-19. The program ensures PPE is available to directly assist in safely carrying out the clinical activities and direct interactions with the patients participating in the trial. Eligibility is limited to recipients conducting COVID-related clinical research and clinical studies supported by NIAID's emergency appropriation provided by the CARES Act. Annual deadline: applications will be accepted on a rolling basis through 7/16/22. See https://grants.nih.gov/grants/guide/pa-files/PAR-21-276.html for details

Program: Biophotonics

Agency: National Science Foundation

Next Deadline: Mar 2022 *(target date)*

Supports research projects to explore the research frontiers in photonics principles, engineering and technology that are relevant for critical problems in fields of medicine, biology and biotechnology. Research topics include: Imaging in the second near infrared window; Macromolecule markers; Low coherence sensing at the nanoscale; Neurophotonics; Microphotonics and nanophotonics; and Optogenetics. Annual deadlines: applications will be accepted at any time. See https://tinyurl.com/h5vp5vyd for details.

Program: Crosscutting Activities in Materials Research

Agency: National Science Foundation

Next Deadline: Mar 2022 *(target date)*

Notice seeking applications to coordinate and support crosscutting activities within the Division of Materials Research-- and more broadly across NSF-- with an emphasis on diversity and inclusion, international cooperation, and education (including experiential learning at REU/RET Sites). Proposals are welcome that do not fit elsewhere at NSF that are also highly relevant for the materials research and education community. Annual deadline: proposals accepted at any time, early in the fiscal year is preferred. See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505350 for details.

Program: Innovations in Graduate Education (IGE) Program

Agency: National Science Foundation

Next Deadline: Mar 25, 2022

Supports ways for graduate students in research-based master's and doctoral degree programs to develop the skills, knowledge, and competencies needed to pursue a range of STEM careers. Funds support projects aimed at piloting, testing, and validating innovative and potentially transformative approaches to graduate education. Funded projects are intended to generate the knowledge required for their customization, implementation, and broader adoption. Limited submission: two proposals per competition. Annual deadline: 3/25. See https://beta.nsf.gov/funding/opportunities/innovations-graduate-education-program for details.

Program: Science and Technology Centers: Integrative Partnerships

Agency: National Science Foundation

Next Deadline: Feb 01, 2022

Supports exceptionally innovative, complex research and education projects, known as Science and Technologiy Centers (STC) that require large-scale, long-term awards. STCs focus on creating new scientific paradigms, establishing entirely new scientific disciplines and developing transformative technologies which have the potential for broad scientific or societal impact. Deadline is for required preliminary proposals. See https://beta.nsf.gov/funding/opportunities/science-and-technology-centers-integrative-partnerships for details.

Program: Infrastructure Innovation for Biological Research

Agency: National Science Foundation

Next Deadline: Mar 2022 *(target date)*

Supports new and innovative research in biological informatics, instrumentation and associated methods, as well as multidisciplinary approaches to these broad themes that address needs in basic biological research. These awards support pioneering approaches that develop de novo infrastructure, significantly redesign existing infrastructure, or apply existing infrastructure in novel ways. Annual deadline: proposals accepted at any time. See https://tinyurl.com/3h4pesdf for details.

Program: Molecular and Cellular Biosciences: Investigator-Initiated Research Projects

Agency: National Science Foundation

Next Deadline: Mar 2022 *(target date)*

Supports efforts to support quantitative, mechanistic, predictive, and theory-driven fundamental research designed to promote understanding of complex living systems at the molecular, subcellular, and cellular levels. Tracks include: Cellular Dynamics and Function; Genetic Mechanisms; Molecular Biophysics; Systems and Synthetic Biology; and Rules of Life to support research that spans from the molecular and cellular levels normally funded by MCB to organismal and ecosystem scales typically funded by other divisions in the Biological Sciences. Annual deadline: proposals are accepted at any time. See https://beta.nsf.gov/funding/opportunities/division-molecular-and-cellular-biosciences-investigator-initiated-research-1 for details.

Program: National Oceanographic Partnership Program (NOPP)

Agency: U.S. Department of Defense

Next Deadline: Jan 07, 2022

Supports public and private sectors to create innovative advances in ocean science, technology, and education. Partnering between federal, university, and private research sectors is encouraged but not required. Multiple topic areas and deadlines. See http://www.nopp.org/projects/announcements/ for updates.

Program: Small Business Innovation Research (SBIR)/Small Business Technology Transfer (STTR)

Agency: U.S. Department of Defense

Next Deadline: Jan 04, 2022

Program funds early-stage R&D at small technology companies and is designed to stimulate technological innovation; increase private sector commercialization of federal R&D; increase small business participation in federally funded R&D; and foster participation by minority and disadvantaged firms in technological innovation. IHEs may partner. Deadlines refer to Army, Navy, and Air Force SBIR/STTR solicitations. See https://rt.cto.mil/rtl-small-business-resources/sbir-sttr/

Program: Strategic Environmental Research and Development Program (SERDP)

Agency: U.S. Department of Defense

Next Deadline: Jan 06, 2022

Supports research and demonstration projects that respond to DoD's high-priority environmental requirements. Focus areas include: Environmental Restoration, Munitions Response, Resource Conservation and Resiliency, and Weapons Systems and Platforms. Solicitations include: Core Solicitation (1/6 for required pre-proposals) and SERDP Exploratory Development, which provides funding opportunities for work that will investigate innovative environmental approaches that entail high technical risk or require supporting data to establish proof of concept (3/10). See http://www.serdp.org/Funding-Opportunities for updates.

Program: ANL Laboratory-Graduate Research Appointments

Agency: U.S. Department of Energy

Next Deadline: Mar 2022 *(target date)*

Program provides Master's and Ph.D. level candidates an opportunity to conduct work within an Argonne research group or on a specific project for the purpose of supporting the student's thesis work. The university sets the academic standards and awards the degree. In practice, the participation of the faculty member varies from full partnership in the research to general supervision of the student's thesis work. The Argonne staff member keeps the faculty member at the university informed on the student's progress. Appointees receive an hourly wage which is determined by the hiring division and the Educational Programs Office. Annual deadline: applications may be submitted at any time, but apply by March 1 for summer position. See https://www.anl.gov/education/graduate-research-aide-appointments for details.

Program: Faculty/Staff Exchange Program

Agency: U.S. Department of Energy

Next Deadline: Mar 2022   *(target date)*

Provides support for important Idaho National Lab (INL)/university collaborations that are designed to bring close university involvement in the research, educational, and outreach activities of the laboratory. This funding can be used to initiate, continue, or enhance the interactions between INL and university researchers and students. Collaborations with all universities are welcomed, but preferential consideration will be given to collaborations with a select group of universities. Annual deadline: proposals accepted at any time. See https://inl.gov/inl-initiatives/education/ for details.

Program: Small Business Innovation Research Program (SBIR)

Agency: U.S. Department of Homeland Security

Next Deadline: Jan 19, 2022

The S&T Directorate SBIR program issues two solicitations per year, generally in December and April. Topics for solicitations are developed by program managers in each of the S&T divisions. Eligibility is limited to small businesses, which may partner with colleges and universities. Program goals include increasing the participation of small businesses in federal research and development programs and bringing innovative homeland security solutions to reality. The program is focused on near-term commercialization and delivery of operational prototypes to government. See https://www.dhs.gov/science-and-technology/sbir for updates.

Program: DHS Summer Research Team Program for Minority Serving Institutions

Agency: U.S. Department of Homeland Security

Next Deadline: Jan 10, 2022

Provides faculty and student research teams the opportunity to conduct research at university-based DHS Centers of Excellence. Faculty and students must be in a discipline/major related to homeland security STEM research area, such as Advanced Data Analysis and Visualization; Biological Threads and Countermeasures; Immigration Studies; Emergency Preparedness and Response, and others. Deadline refers to Faculty Application Form and CV. At the end of the summer, faculty must co-author a research proposal with the DHS Center for follow on funding for the academic year. Funds also support Student Team Members (2/18). See http://tinyurl.com/oee8djd for details.

Program: EdMap - National Cooperative Geologic Mapping Program

Agency: U.S. Department of the Interior

Next Deadline: Jan 03, 2022

Supports efforts to train the next generation of geologic mappers. NCGMP provides funds for graduate (up to $35,000) and selected undergraduate (up to $25,000) students in academic research projects involving geologic mapping as a major component. These cooperative agreements are a means to expand the research and educational capacities of academic programs that teach earth science students the techniques of geologic mapping and field data analysis. See http://ncgmp.usgs.gov/about/EDMAP/funding.html and Grants.gov for details.

Program: Aviation Research Grants

Agency: U.S. Department of Transportation

Next Deadline: Mar   2022   *(target date)*

Program encourages and supports innovative, advanced research of potential benefit to the long-term growth of civil aviation and commercial space transportation. The pursuit of basic and applied research in scientific and engineering disciplines that have the potential to further knowledge and understanding on a broad front of emerging technologies is crucial to the realization of this goal. The FAA encourages the submission of proposals that embrace the entire spectrum of physical, chemical, biological, medical, psychological, mathematical, and engineering sciences. Annual deadline: proposals accepted any time through 9/7/27. See https://www.grants.gov/web/grants/view-opportunity.html?oppId=328902 for details.
