**Deadlines**  
 Funding Expertise. Personally Delivered.

February 01, 2024

This publication includes deadline dates for the month of May 2024 and late announcements for the months of April 2024 and March 2024. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

**Those deadlines marked by an asterisk (\*\*) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.**

**Program:** Kirschstein National Research Service Award (NRSA) Short-Term Institutional Research Training Grant (ParentT35)

**Agency:** National Institutes of Health

**Next Deadline:** May 25, 2024

Supports the development and/or enhancement of research training opportunities for predoctoral students interested in careers in biomedical, behavioral, or clinical research. This program is also intended to encourage training of graduate students in the physical or quantitative sciences to pursue research careers by short-term exposure to, and involvement in, the health-related sciences. The training should be of sufficient depth to enable the trainees, upon completion of the program, to have a thorough exposure to the principles underlying the conduct of biomedical research. Annual deadlines: 1/25, 5/25 and 9/25 through 5/8/26. See <https://grants.nih.gov/grants/guide/pa-files/PA-23-080.html>

**Next Deadline:** May 14, 2024

Supports interdisciplinary, international research on complex mechanisms of living organisms. Research grants provide for teams of scientists from different countries to combine their expertise in approaches to questions that could not be answered by individual laboratories. Areas of interest are brain functions and molecular approaches to biological functions. Long-Term Fellowships and Cross-Disciplinary Fellowships allow opportunities for applicants with a Ph.D. to undertake life science research projects outside their area of existing expertise.
