This publication includes deadline dates for the month of January 2023 and late announcements for the months of December 2022 and November 2022. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

**Program:** Research Fellowships  
**Agency:** Harry Ransom Humanities Research Center  
**Next Deadline:** Nov 14, 2022  
Supports scholarly research projects in all areas of the humanities. Priority, however, will be given to proposals that concentrate on the centers collections (major emphasis is on the study of literature and culture of the U.S., Great Britain and France) and that require substantial on-site use of them. Approximately 60 fellowships will be awarded. Fellowships range from one to four months, with stipends of $3,500/month each. Also available are travel stipends of $2,000 each, and dissertation fellowships with stipends of $2,000 each. See https://www.hrc.utexas.edu/fellowships/#program-guidelines

Program: Pilot Studies of Biological, Behavioral and Social Mechanisms Contributing to HIV Pathogenesis
Agency: National Institutes of Health
Next Deadline: Jan 07, 2023
Supports innovative basic and translational pilot research projects that are aligned with NIH HIV/AIDS research priorities. Potential topics could address multiple overarching priorities. These include elucidation of unique pathophysiological mechanisms contributing to HIV comorbidities, coinfections, and complications (CCCs) affecting organs, tissues, and processes. Likewise, interrogations into biological mechanisms underlying HIV reservoirs in NIDDK-relevant tissues are important for developing strategies for long-term viral suppression or eradication. Annual deadlines: 1/7, 5/7, 9/7 through 1/8/24. See https://grants.nih.gov/grants/guide/pa-files/PAR-21-062.html

Program: Time-Sensitive Obesity Policy and Program Evaluation (R01)
Agency: National Institutes of Health
Next Deadline: Jan 2023 (target date)
Supports research where opportunities for empirical study are, by their very nature, only available through expedited review and funding. All applications submitted to this FOA must demonstrate that the evaluation of an obesity related policy and/or program offers an uncommon and scientifically compelling research opportunity that will only be available if the research is initiated with minimum delay. For these reasons, applications submitted to this time-sensitive FOA are not eligible for re-submission. Annual deadlines: applications due monthly through 9/11/24. Funding will be awarded within four months. See https://grants.nih.gov/grants/guide/pa-files/PAR-21-305.html

**Program:** Designing Accountable Software Systems (DASS)  
**Agency:** National Science Foundation  
**Next Deadline:** Jan 27, 2023  
Program solicits foundational research aimed towards a deeper understanding and formalization of the bi-directional relationship between software systems and the complex social and legal contexts within which software systems must be designed and operate. The DASS program aims to bring researchers in computer and information science and engineering together with researchers in law and social, behavioral, and economic sciences to jointly develop rigorous and reproducible methodologies for understanding the drivers of social goals for software and for designing, implementing, and validating accountable software systems. **Agency:** National Science Foundation  
**Program:** Partnerships for Innovation  
**Next Deadline:** Jan 11, 2023

Offers researchers from all disciplines of science and engineering funded by NSF the opportunity to perform translational research and technology development, catalyze partnerships and accelerate the transition of discoveries from the laboratory to the marketplace for societal benefit. Funds support two tracks: the Technology Translation track allows NSF-funded researchers to further develop their NSF-funded research with promising commercial potential and societal impact; and the Research Partnerships (PFI-RP) track supports technology development activities through a multi-organization collaboration. Limited submission: An organization may not submit more than one new or resubmitted PFI-RP proposal. Annual deadline: second Wednesday in January and July. See http://tinyurl.com/q8x4ju

**Program:** U.S.-Israel Binational Agricultural Research and Development Fund (BARD)

**Agency:** U.S. Department of Agriculture

**Next Deadline:** Jan 17, 2023

BARD is a competitive funding program for agricultural research, jointly conducted by American and Israeli scientists. Most BARD projects focus on increasing agricultural productivity, particularly in hot and dry climates, emphasizing plant and animal health, food quality and safety, and environmental issues. Program offers postdoctoral, senior research and graduate student fellowships, and also supports international workshops. All fellowships and workshops have an annual deadline: mid-January.
