

Grants Resource Center
Deadlines
 Funding Expertise. Personally Delivered.

January 06, 2023

This publication includes deadline dates for the month of April 2023 and late announcements for the months of March 2023 and February 2023. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

Program: AMS Subventions for Publications, Awards, and Research and Travel Grants

Agency: American Musicological Society

Next Deadline: Apr 01, 2023 (*tentative*)

Supports individuals with expenses involved in the publication of works of musical scholarship. Goal is to defray costs not covered by publishers. Proposals that utilize newer technologies are encouraged. AMS Subventions for Publications awards range from \$500 to \$2,500 each (annual deadline: 2/15, 8/15). AMS 75 Subventions provide up to \$5,000 for first books from early career scholars (annual deadline: 2/15, 8/15). Various awards for outstanding research and publications in music (annual deadlines: 4/1, 8/15). Also provides small Travel and Research Grants (annual deadlines: 4/1, 8/15). Program: Luce Fund in American Art
(Exhibitions and Publications)

Agency: Henry Luce Foundation

Next Deadline: Apr 28, 2023

Supports scholarly loan exhibitions that significantly advance the study and understanding of art of the United States, including all facets of Native American art. Program is object-based and does not include projects that are primarily historical, documentary, or sociological. IHEs with American museums or galleries committed to American art may apply. Applicants must be institutions that originated the project, not necessarily the venue. Deadline is for required LOI. Responsive Grants for digitization, art archives, and permanent collection reinstallation also available (rolling deadline). See <https://www.hluce.org/programs/american-art/>

202-682-5654

Program: Awards for Faculty at HBCU, HSI and Tribal College and University Campuses

Agency: National Endowment for the Humanities

Next Deadline: Apr 12, 2023 (*tentative*)

Provides up to \$60,000 for full-time tenured, tenure-track, and annual contract faculty at Historically Black (HBCU), Hispanic-Serving, (HSI) or Tribal Colleges and Universities to conduct research in the humanities. A Ph.D. is not required. Awards will fund projects that contribute to scholarly knowledge or to the public's understanding of the humanities through publications, presentations, and classroom teaching. Awards are made to individual faculty. New guidelines will be posted at least two months before the deadline. See <https://www.neh.gov/divisions/research>

CFDA Number:

Contact: FacultyAwards@neh.gov
202-606-8200

Program: Fellowships
Agency: National Endowment for the Humanities

Next Deadline: Apr 12, 2023

Supports individuals pursuing advanced research in the humanities that contributes to scholarly knowledge or to the general public's understanding of the humanities. Scholarly articles, monographs on specialized subjects, books on broad topics, archaeological site reports, translations, editions, or other scholarly tools are supported. Fellowships support full-time work for 6-12 continuous months. Award is up to \$60,000. NEH also offers Fellowships for Advanced Social Science Research on Japan (annual deadline: 4/26). See <http://www.neh.gov/grants/research/fellowships>

CFDA Number: 45.142

Contact: fellowships@neh.gov
202-606-8200

Program: NEH-Mellon Fellowships for Digital Publication

Agency: National Endowment for the Humanities

Next Deadline: Apr 19, 2023

Supports scholars pursuing interpretive research projects that require digital expression and digital publication. Supports projects that incorporate visual, audio, and/or other multimedia materials or flexible reading pathways that could not be included in traditionally published books, as well as an active distribution plan. Stand-alone databases/other projects that lack an interpretive argument are not eligible. Applicants may not apply to both this and the main NEH Fellowships program. Approximately \$5,000 per month is available to support six-to-12 month fellowships. See <https://www.neh.gov/grants/research/neh-mellon-fellowships-digital-publication>

Program: Small Business Technology Transfer (STTR) Program (Parent R41/42)

Agency: National Institutes of Health

Next Deadline: Apr 05, 2023

Supports research (R41/42) at small business concerns (SBC) that have the research capabilities and technological expertise to contribute to the R&D mission(s) of NIH. At least 40% of the work must be performed by the SBC and at least 30% of the work must be performed by a single, partnering research institution. Deadline is for proposals for Phase I feasibility studies. Support normally is for six months/up to \$275,766 for Phase I and up to \$1.84 million for Phase II. Some topics may exceed these award amounts. Annual deadlines: 1/5, 4/5, 9/5 through 4/6/23. See <https://grants.nih.gov/grants/guide/pa-files/PA-22-178.html>

Program: Opportunities for Collaborative Research at the NIH Clinical Center

Agency: National Institutes of Health

Next Deadline: Apr 18, 2023

The goal of this program is to support collaborative translational research projects aligned with NIH efforts to enhance the translation of basic biological discoveries into clinical applications that improve health. It encourages high quality science demonstrating the potential to result in understanding an important disease process or lead to new therapeutic interventions, diagnostics, or prevention strategies within the research interests and priorities of the participating NIH Institutes/Centers (ICs). Annual deadline: 4/18 through 2024. See <https://grants.nih.gov/grants/guide/pa-files/PAR-21-343.html>

Program: NIDCR Dual Degree Dentist Scientist Predoctoral to Postdoctoral Transition Award

Agency: National Institutes of Health

Next Deadline: Apr 08, 2023

Program provides support and mentorship to outstanding students enrolled in integrated dual degree dental (DDS/DMD) and Ph.D. programs during the transition from predoctoral student to postdoctoral scholar. This phased award program will facilitate completion of predoctoral dual degree dentist scientist training (F99) and progression to mentored postdoctoral positions in dental, oral and craniofacial research (K00). Program does not allow applicants to propose to lead an independent clinical trial, but does allow applicants to propose research experience in a clinical trial led by a sponsor or co-sponsor. Annual deadlines: 4/8, 8/8, 12/8 through 1/8/24. See <https://grants.nih.gov/grants/guide/pa-files/PAR-21-108.html>

Program: Time-Sensitive Obesity Policy and Program Evaluation (R01)

Agency: National Institutes of Health

Next Deadline: Apr 2023 (target date)

Supports research where opportunities for empirical study are, by their very nature, only available through expedited review and funding. All applications submitted to this FOA must demonstrate that the evaluation of an obesity related policy and /or program offers an uncommon and scientifically compelling research opportunity that will only be available if the research is initiated with minimum delay. For these reasons, applications submitted to this time-sensitive FOA are not eligible for re-submission. Annual deadlines: applications due monthly through 9/11/24. Funding will be awarded within four months. See <https://grants.nih.gov/grants/guide/pa-files/PAR-21-305.html>

Agency: National Science Foundation

Next Deadline: Mar 06, 2023

The Divisions of Chemical, Bioengineering and Environmental Transport (CBET) and Civil, Mechanical, and Manufacturing Infrastructure (CMMI) in the Engineering Directorate of the National Science Foundation (NSF) are partnering with The Center for the Advancement of Science in Space (CASIS) to solicit research projects in the general fields of tissue engineering and mechanobiology that can utilize the International Space Station (ISS) National Lab to conduct research that will benefit life on Earth. Only U.S. entities including academic investigators, non-profit independent research laboratories and academic-commercial teams are eligible to apply. See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505735 for details.

Program: NSF/FDA Scholar-in-Residence at FDA

Agency: National Science Foundation

Next Deadline: Apr 2023 (*target date*)

An interagency partnership for the investigation of scientific and engineering issues concerning emerging trends in medical device technology, designed to enable investigators in science, engineering, and computer science to develop research collaborations within the intramural research environment at the FDA. This solicitation features three mechanisms: 1) Principal Investigators at FDA; 2) Postdoctoral Researchers at FDA; and 3) Graduate Students at FDA. Annual deadline: proposals accepted at any time. See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505455 for details.

Program: Geospace Facilities

Agency: National Science Foundation

Next Deadline: Apr 2023 (target date)

Promotes basic research on structure and dynamics of Earth's upper atmosphere by supporting operation of a chain of incoherent-scatter radars and by ensuring these radars are maintained as state-of-the-art research tools available to all qualified scientists. UAF consists of large incoherent-scatter radar facilities located along a longitudinal chain from Greenland to Peru. Use of facilities is available on a competitive basis. Annual deadline: proposals accepted at any time, as early as possible in the fiscal year. See <https://tinyurl.com/39z5c59h> for details.

703-292-7207

Program: Solar Terrestrial

Agency: National Science Foundation

Next Deadline: Apr 2023 (target date)

Supports research on the processes by which energy in diverse forms is generated by the sun, transported to Earth, and deposited in the terrestrial environment. Major topics include space weather impacts, helioseismology, solar dynamo, solar activity cycle, magnetic flux emergence, solar flares and eruptive activity, coronal mass ejections, solar wind heating, solar energetic particles, interactions with cosmic rays, and solar wind/magnetosphere boundary problems. Annual deadline: proposals accepted any time, as early as possible in fiscal year. See <https://tinyurl.com/enj3rpew> for details.

Program: Experiential Learning for Emerging and Novel Technologies (ExLENT)

Agency: National Science Foundation

Next Deadline: Mar 02, 2023

Program seeks to support experiential learning opportunities for individuals from diverse professional and educational backgrounds that will increase access to, and interest in, career pathways in emerging technology fields (e.g., advanced manufacturing, advanced wireless, artificial intelligence, biotechnology, quantum information science, semiconductors, and microelectronics). Program has three tracks: Pivots Track and Beginnings Track (March and September deadlines); and Explorations Track (September deadline). Awards are up to \$1 million over three years. See <https://beta.nsf.gov/funding/opportunities/experiential-learning-emerging-novel-technologies>

Program: SPECA Grants Program

Agency: U.S. Department of Agriculture

Next Deadline: Feb 01, 2023

Promotes and strengthens teaching programs in agriscience and agribusiness at secondary and two-year postsecondary institutions by enhancing curricula, increasing faculty teaching competencies, and promoting higher education to prepare students for incorporating agriscience or agribusiness subject matter into other instructional programs. Matching requirement is 100 percent but waivable if applicant or collaborator is exempt (many IHEs are exempt, see eligibility section). Offers Regular and Collaborative Types 1 & 2 grant types. Collaboratives types vary by number of partners required. See <http://tinyurl.com/ho24gmg> for details.

Program: Measurement Science and Engineering Research Grants Program

Agency: U.S. Department of Commerce

Next Deadline: Apr 2023 (target date)

NIST Laboratories in MD and CO conduct research responding to industry needs in the following areas: material measurement; physical measurement; engineering; fire research; information technology; neutron research; nanoscale science and technology; etc. Also supports an Engineering Laboratory Grant Program. See <https://www.nist.gov/about-nist/funding-opportunities> and [Grants.gov](https://www.Grants.gov) for CFDA 11.609.

Program: Summer Undergraduate Research Fellowships (SURF)

Agency: U.S. Department of Commerce

Next Deadline: Feb 01, 2023

Supports two separate 12-week internship program for undergraduates in pursuit of graduate degrees in science and engineering to provide hands-on research experience at a NIST lab in Maryland or Colorado. Opportunities exist in the following disciplines: Chemical Engineering; Electrical Engineering; Information Technology; Materials Science; and Physics. IHEs must apply and nominate students. Participating students must have a 3.0 or better and must be U.S. citizens or permanent residents. See <https://www.nist.gov/surf/surf-gaithersburg/how-do-i-apply>

Program: Coral Reef Conservation Program (CRCP)

Agency: U.S. Department of Commerce

Next Deadline: Feb 2023 (target date)

Program was established to protect, conserve, and restore the nation's coral reefs by maintaining healthy ecosystem function. The focus on four main pillars of work: Increase resilience to climate change; Reduce land-based sources of pollution; Improve fisheries' sustainability; and Restore viable coral populations. Multiple solicitations available throughout the year. See <https://tinyurl.com/w83mxnjt>

Program: National Estuarine Research Reserve Programs

Agency: U.S. Department of Commerce

Next Deadline: Apr 2023 (target date)

Supports coastal research and long-term monitoring, and to provide facilities for on-site staff, visiting scientists and graduate students - also as sites for comparative studies on coastal topics such as ecosystem dynamics, human influences on estuarine systems, habitat conservation and restoration, species management, and social science. Grants are available in partnership with individual NERRs. Includes the Margaret A. Davidson Graduate Fellowships (December deadline in odd-numbered years). See <https://coast.noaa.gov/nerrs/>

Program: AFOSR: Chemistry and Biological Sciences

Agency: U.S. Department of Defense

Next Deadline: Apr 2023 (target date)

Supports research activities in chemistry and biological sciences, including fundamental chemistry, biology, mechanics, and biophysics research to provide the Air Force with novel options to increase performance and operational flexibility. Focus areas include: Biophysics; Human Performance and Biosystems; Mechanics of Multifunctional Materials and Microsystems; Molecular Dynamics and Theoretical Chemistry; Natural Materials, Systems, and Extremophiles; and Organic Materials Chemistry. Annual deadlines: proposals accepted at any time. See <https://tinyurl.com/y6gdsjc6>

Program: AFOSR: Information and Networks

Agency: U.S. Department of Defense

Next Deadline: Apr 2023 (target date)

Supports the discovery and development of foundational issues in mathematical, information and network oriented sciences. Projects are organized along three themes: Information, Decision Making, and Networks. Focus areas include: Computational Cognition and Machine Intelligence; Computational Mathematics; Dynamics and Control; Dynamic Data and Information Processing; Information Assurance and Cybersecurity; Optimization and Discrete Mathematics; Science of Information, Computation, Learning, and Fusion; Trust and Influence; Complex Networks; and Computational Social Sciences. Annual deadline: proposals accepted at any time. See <https://www.afrl.af.mil/About-Us/Fact-Sheets/Fact-Sheet-Display/Article/2282109/afosr-information-and-networks/>

CFDA Number:

Contact: James Lawton, AFOSR
machine.itel@us.af.mil

Program: AFOSR: Physical Sciences

Agency: U.S. Department of Defense

Next Deadline: Apr 2023 (target date)

Supports the discovery and transition of foundational physical science to enable air, space, and cyber power. Topic areas include: Materials with Extreme Properties; Atomic and Molecular Physics; Electromagnetics; Laser and Optical Physics; Optoelectronics and Photonics; Plasma and Electro-Energetic Physics; Quantum Information Sciences; Remote Sensing; Space Science; and Ultrashort Pulse Laser-Matter Interactions. Annual deadline: white papers accepted anytime. See <https://tinyurl.com/y29p2thg>

Program: Army Educational Outreach Program
Apprenticeships

Agency: U.S. Department of Defense

Next Deadline: Apr 2023 (target date)

Supports high school, undergraduate, and graduate students looking to conduct STEM research with sponsored scientists at various institutions nationwide. Programs for undergraduates include: Undergraduate Research Apprenticeship Program; and College Qualified Leaders. Programs include stipend, and provide experience developing and presenting new scientific research, as well as introduces students to Army specific scientific interests. Programs open from November to January, and applications are due in late February to March, specific due dates vary by program location. See <https://www.usaeop.com/students/>

Program: Intelligence Community Postdoctoral
Research Fellowship Program

Agency: U.S. Department of Defense

Next Deadline: Feb 28, 2023

Program seeks to establish long term relationships and mentoring of postdoctoral researchers and to provide research institutes with an understanding of the Intelligence Community's research requirements. Program funds unclassified, basic research in areas of interest to the Intelligence Community, from behavior and language to energy and atmosphere. Fellowships are two-year awards of \$75,000-\$79,000 per year (depending on location) with an optional third year. Ten to 20 fellowships are awarded annually. Program: ONR: Navy Postdoctoral Fellowship
Program

Agency: U.S. Department of Defense

Next Deadline: Apr 2023 (target date)

Sponsors program at Naval R&D centers & labs to increase the involvement of creative & highly trained scientists & engineers from academia & industry to scientific & technical areas of interest & relevance to the Navy. Supports about 40 new postdoc appointments/year. Current interests include: computer science, artificial intelligence, plasma physics, acoustics, chemistry, materials science, optical sciences, condensed matter & radiation sciences, electronics science, environmental sciences, marine geosciences, remote sensing, oceanography, marine meteorology. Annual deadline: applications accepted anytime. See <https://nrl.asee.org/about>

Program: ONR: STEM Education and
Workforce Program

Agency: U.S. Department of Defense

Next Deadline: Apr 14, 2023

Supports efforts for augmenting existing or developing innovative solutions that directly maintain, or cultivate a diverse, world-class STEM workforce in order to maintain the U.S. Navy and Marine Corps' technological superiority. Projects must aim to increase student engagement in STEM and persistence of students in STEM degrees, while improving student technical capacity from high school to the current naval STEM workforce. Deadline refers to required white papers. See <https://www.onr.navy.mil/Education-Outreach/Navy-STEM-Strategy> and <https://www.onr.navy.mil/work-with-us/funding-opportunities/announcements>

Program: Advanced Research Projects Agency-Energy

Agency: U.S. Department of Energy

Next Deadline: Apr 2023 (target date)

Supports high-potential, high-impact energy technologies that are too early for private-sector investment but have the potential to radically improve U.S. economic prosperity, national security, and environmental well being. Multiple opportunities solicited throughout the year. The ARPA-E OPEN solicitation is issued every three years to fund projects outside of focused topic solicitations (last required concept paper deadline 4/6/21). See <https://arpa-e-foa.energy.gov/>

Program: North American Wetlands Conservation Act Grants

Agency: U.S. Department of the Interior

Next Deadline: Feb 24, 2023

Provides matching funds for wetlands conservation partnership projects that ensure long-term benefits to wetland ecosystems and the waterfowl, fish and wildlife that depend on such habitats. Supports acquisition, enhancement, and restoration of wetland and wetland-associated habitats. Supports U.S. Small Grants (10/13); and U.S. Standard Grants (2/24 and 7/8). Mexico (5/18) and Canada (8/26) programs also offered. A 1:1 match is required for most programs. Each grant and match dollar, except for indirect costs, must be linked to an acre acquired, restored, enhanced, and/or established. See <https://www.fws.gov/service/north-american-wetlands-conservation-act-nawca-grants-us-standard>

Program: Grants-in-Aid and Research Grants

Agency: Whitehall Foundation

Next Deadline: Apr 15, 2023

Supports basic research in vertebrate and invertebrate (excluding clinical) neurobiology in the U.S. Grants-in-Aid provide up to \$30,000 for one year to researchers at the assistant professor level or senior researchers who have not received significant funding. Research Grants provide up to \$100,000 per year for up to three years to established researchers of any age who have not received significant funding. The Foundation will accept only one letter of intent per year from an Investigator. Annual deadlines: required LOIs are due: 1/15, 4/15, 10/1. See <http://www.whitehall.org/grants>
