This publication includes deadline dates for the month of October 2020 and late announcements for the months of September 2020 and August 2020. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

**Agency:** Francis Family Foundation  
**Next Deadline:** Oct 12, 2020  
Supports the development of outstanding investigators who plan careers in pulmonary science, to help make the transition to independent, self-supporting, faculty members. Each of these PBF Fellows will receive $225,000 in salary support over a three-year period. Mentorship by established investigators is required, and fellows must guarantee 75% time availability for research. Most successful candidates have 2-5 years of research experience and a minimum of 2-3 research publications at time of application. **Program:** Rural Health Funding Opportunities  
**Agency:** Health Resources and Services Administration  
**Next Deadline:** Oct 2020 (target date)  
Supports development of new and innovative health care delivery systems in rural communities that lack essential care services. Emphasis on service through collaboration, requiring consortiums of at least two partners. Applicants may address health care needs of a wide range of population groups and to deliver many different types of health care and health care related services in rural communities. IHEs may partner. Multiple programs throughout the year. See https://www.hrsa.gov/ruralhealth/programopportunities/default.aspx for details.

**Agency:** Health Resources and Services Administration  
**Next Deadline:** Oct 2020 (target date)  
The Office for the Advancement of Telehealth (OAT) promotes the use of telehealth technologies for health care delivery, education, and health information services. Telehealth is especially critical in rural and other remote areas that lack sufficient health care services, including specialty care. Traditional models of telehealth involve care delivered to a patient at an originating (or spoke) site from a specialist working at a distant (or hub) site. Programs and deadlines may vary. **Program:** Career Transition Award (K22)  
**Agency:** National Institutes of Health  
**Next Deadline:** Oct 12, 2020  
Many Institutes support this program which aims to transition investigators from the mentored to the independent stage of their careers. It enables promising new researchers to obtain additional mentored postdoctoral research experience. Award often has two phases, depending upon the Institute supporting it: postdoctoral research training at an NIH lab for up to 1-2 years; and support for awardee’s research at an institution to which she/he has been recruited. Call before applying. Annual deadlines: 2/12, 6/12, 10/12. See https://researchtraining.nih.gov/programs/career-development/K22 for individual notices and contacts.

**Program:** Independent Scientist Award (K02)

**Agency:** National Institutes of Health

**Next Deadline:** Oct 12, 2020

Supports the development of outstanding scientists and enable them to expand their potential to make significant contributions to their field of research. The K02 award provides three to five years of salary support and "protected time" for newly independent scientists who can demonstrate the need for a period of intensive research focus as a means of enhancing their research careers. Some NIH Institutes and Centers may or may not require candidates to have an NIH research grant at time of application. Candidates must hold a doctoral degree, independent peer reviewed research support at the time the award is made, and commit a minimum of 9 person-months (75% of full-time professional effort) conducting research and relevant career development activities during the period of the award. Call before applying. Annual deadlines: 2/12, 6/12, 10/12 through 5/8/23. See https://grants.nih.gov/grants/guide/pa-files/PA-20-171.html for details including contact information.
Program: Mentored Clinical Scientist Research Career Development Award (K08)
Agency: National Institutes of Health
Next Deadline: Oct 12, 2020
Many NIH institutes support the career development of outstanding clinician research scientists. Goal is to provide specialized study (K08) for individuals with a health professional doctoral degree committed to a career in laboratory or field-based research. Candidates must have potential to develop into independent investigators. Not every NIH institute offers the K08 mechanism. It is suggested that applicants talk to NIH prior to submitting a proposal. Independent Clinical Trials are required. Annual deadlines: 2/12, 6/12, 10/12 through 5/8/23. See http://grants.nih.gov/grants/guide/pa-files/PA-20-202.html for details.

Program: Multilevel Interventions in Cancer Care Delivery: Follow-up to Abnormal Screening Tests (R01 Clinical Trial Optional)

Agency: National Institutes of Health

Next Deadline: Oct 05, 2020

Supports research development and testing of multi-level interventions to improve abnormal screening test follow-up for breast, cervical, colorectal, or lung cancers. Applicants must propose to intervene at two or more levels (patient, provider, clinical team, clinic, healthcare institution, or community setting), and measure outcomes at three or more levels, while accounting for interactions that occur between and across levels. Annual deadlines: 2/5, 6/5, and 10/5 through 1/8/21. See https://grants.nih.gov/grants/guide/pa-files/PA-17-495.html for details.

Program seeks to enhance and expand the national resource of digital data documenting existing vouched biological and paleontological collections and to advance scientific knowledge by improving access to digitized information (including images) residing in vouched scientific collections across the United States. The national resource is structured at three levels: a central coordinating organization, a series of thematic networks based on an important research theme, and the physical collections. Limited submission: Only one Thematic Collections Networks (TCN) proposal may be submitted by any one organization as the lead organization. Organizations may be involved in more than one collaborative effort as a non-lead proposal. Annual deadline: second Friday in October.
