This publication includes deadline dates for the month of February 2020 and late announcements for the months of January 2020 and December 2019. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

Program: Independent Scientist Award (K02)
Agency: National Institutes of Health
Next Deadline: Feb 12, 2020
Supports the development of outstanding scientists and enable them to expand their potential to make significant contributions to their field of research. The K02 award provides three to five years of salary support and "protected time" for newly independent scientists who can demonstrate the need for a period of intensive research focus as a means of enhancing their research careers. Some NIH Institutes and Centers may or may not require candidates to have an NIH research grant at time of application. Candidates must hold a doctoral degree, independent peer reviewed research support at the time the award is made, and commit a minimum of 9 person-months (75% of full-time professional effort) conducting research and relevant career development activities during the period of the award. Call before applying. Annual deadlines: 2/12, 6/12, 10/12 through 1/8/22. See https://grants.nih.gov/grants/guide/pa-files/PA-19-116.html for details.

Program:  Mechanisms Underlying the Contribution of Sleep Disturbances to Pain (R01 Clinical Trial Optional)

Agency:  National Institutes of Health

Next Deadline:  Feb 05, 2020

Supports research that explores the impact of sleep disturbances on pain as it relates to the underlying contribution of sleep disturbances to pain, the development and maintenance of chronic pain. This FOA encourages interdisciplinary research collaboration across academic disciplines to include: neuroscientists, psychologists, endocrinologists, immunologists, geneticists, pharmacologists, chemists, physicists, behavioral scientists, clinicians, caregivers, and others in relevant fields. Basic research linking pain and sleep is a low priority. Annual deadlines: 2/5, 6/5 and 10/5 through 5/8/22. See https://grants.nih.gov/grants/guide/pa-files/PA-19-200.html for details.

Program: Advancing Mechanistic Probiotic/Prebiotic and Human Microbiome Research (R01)

Agency: National Institutes of Health

Next Deadline: Feb 05, 2020

Supports basic and mechanistic science to facilitate development of effective probiotics or pre-/probiotic combinations of relevance to human health and disease; and determine biological outcomes for the evaluation of efficacy of pre/probiotics in appropriate test systems and animal models. It will also encourage inter and multidisciplinary collaborations in a wide range of disciplines including nutritional science, immunology, microbiomics, genomics, other '-omic' sciences, biotechnology, and bioinformatics.

Supports research that examines the relationship between asthma, obesity and self-management. Studies that investigate molecular pathways linking asthma and obesity are encouraged as long as the studies describe how this relates to self-management. In addition, intervention studies targeting asthma or obesity and their effects on each other, and possible mechanisms of action and effect on behavior, are encouraged. Annual deadlines: 2/5, 6/5, 10/5 through 1/8/21. See http://grants.nih.gov/grants/guide/pa-files/PA-18-379.html for details.

Program: Human Networks and Data Science - Infrastructure (HNDS-I)
Agency: National Science Foundation
Next Deadline: Feb 24, 2020
Supports efforts to develop user-friendly large-scale next-generation data resources and relevant analytic techniques to advance fundamental research in social, behavioral and economic (SBE) sciences. Projects should construct such databases and/or relevant analytic techniques and produce a finished product that will enable new types of data-intensive research. Projects should have significant impacts, either across multiple fields or within broad disciplinary areas, by enabling new types of data-intensive research in the SBE sciences. Program: Perception, Action, and Cognition
Agency: National Science Foundation
Next Deadline: Feb 03, 2020
Supports research on perception, action and cognition, with emphasis on research strongly grounded in theory. Topics include vision, audition, haptics, attention, memory, reasoning, written and spoken discourse, motor control and developmental issues. Program encompasses a range of theoretical perspectives, such as symbolic computation, connectionism, ecological, nonlinear dynamics and complex systems. Annual deadlines: workshop and conference proposal windows close 6/15; research proposal windows close 2/1, 8/1. See http://tinyurl.com/ztnfrdu for details.

Agency: National Science Foundation
Next Deadline: Feb 03, 2020
Program supports research that uses historical, philosophical, and social scientific methods to investigate the intellectual, material, and social facets of the scientific, technological, engineering and mathematical (STEM) disciplines. It encompasses a broad spectrum of topics including interdisciplinary studies of ethics, equity, governance, and policy issues that are closely related to STEM disciplines. Annual deadlines: 2/2, 8/3. Doctoral Dissertation Improvement Grant programs are only accepted during the August deadline. See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505697 for details.

Agency: National Science Foundation
Next Deadline: Feb 03, 2020
Supports basic research yielding a scientific evidence base to improve the design and emergence, development and deployment, and management and ultimate effectiveness of organizations of all kinds. Projects should advance business practitioners', policy-makers', and research communities' fundamental understanding of how organizations develop, form, and operate. The majority of space in any proposal will need to be dedicated to the explication of theory, methods, and specific contribution to the evidence base about organizational effectiveness. Annual deadlines: target dates are 2/2 and 9/3. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=504696 for details.
