

# MAJOR COURSE SUBSTITUTION APPLICATION FORM

From [EM 21-23](#): Major programs may apply to CAB to designate up to three GE requirements fulfilled upon completion of that major. Students who have completed these areas for a major and subsequently declare a different major may use the courses already taken to fulfill GE requirements.

**Date Submitted:**  **Department:**

**Degree Program(s):**

**Proposed Substitution(s):**

GE Area (e.g. C1, UD-B)	Proposed Major Course	GE SLO's covered by proposed course (minimum of 2 required for each course)

For each course, please attach a **syllabus** and a detailed **rationale**. If additional documentation (e.g. assignments) is needed as evidence to support the claims in the rationale please attach those as well. The rationale must address the following:

1. Explain how the course content fits into the GE Area (e.g. C1, UD-B) for which the course will be substituting. *See EO 1100, Article 4, for detailed information on the Subject Areas.*
2. Explain in detail how the course meets each of the GE SLOs it is meant to address. *See EM 21-23 for a list of the five GE SLOs at CSU, Chico.*

Be specific: refer to items in the syllabus and/or supplemental documentation as evidence to justify the claims in the rationale.

*If approved, Major Course Substitutions will be valid for five years and then reconsidered at that time. Note: Major Course Substitutions fulfill GE area requirements only and do not count towards a Pathway Minor. A Major Course Substitution in upper division GE will make it impossible for students to complete a Pathway Minor without taking additional courses.*

The proposed Major Course Substitution(s) has/have been reviewed by the Department Curriculum Committee:

\_\_\_\_\_  
Chair, Dept. Curriculum Committee (print name) Date

\_\_\_\_\_  
Department Chair (print name) Date

CAB USE only

\_\_\_\_\_  
 Approved Chair, GE CAB Date

**Submit completed application to Curriculum Services, SSC 460, Zip 128, or nsgray@csuchico.edu**
