

California State University, Chico

Today Decides Tomorrow

The University

California State University, Chico is a fully accredited, state-supported member of a 23-campus CSU system. The university is a residential campus serving a diverse student body of approximately 17,000.

Founded in 1887, CSU, Chico offers undergraduate and graduate programs in the Colleges of Behavioral and Social Sciences; Communication and Education; Computer Science, Engineering and Construction Management; Humanities and Fine Arts; Natural Sciences; Business; and, Agriculture.

As a comprehensive university serving Northern California and other regions nationally and internationally, our first priority is the education of our students. We are committed to assisting students in their search for knowledge and understanding and to prepare them with the attitudes, skills and habits of lifelong learning in order to assume responsibility in a democratic community and global society.

The Community

With a population of nearly 110,000, Chico is located in the Sacramento Valley near the foothills of the Sierra Nevadas. It is 180 miles northeast of San Francisco and 90 miles north of Sacramento and offers a reasonable cost of living compared to metropolitan areas.

Chico retains the charm of a small town while offering medical services, excellent public and private schools, and many cultural and recreational activities. The city's Bidwell Park, one of the largest municipal parks, extends from the city center along a creek deep into the foothills and surrounding canyons. For more information:

Temporary Faculty (Lecturer) Position Department of Electrical and Computer Engineering College of Engineering, Computer Science, and Construction Management

CSU, Chico is committed to recruiting, developing and retaining the most talented people from a diverse candidate pool. The university enrolled over 15,000 students in Fall 2020 ; 43% are white, 36% are Latinx, 6% are Asian, 3% are African American, 0.5% are Native American and 5% are multi-racial/ethnic. We proudly hold Hispanic-Serving Institution (HSI) designation, and over half of our students will be the first generation in their family to earn a bachelor's degree.

The ideal candidate will share Chico State's demonstrated commitment to equity, diversity and inclusion, have prior experience working in culturally and socio-economically diverse learning environments, and will contribute to student success through inclusive pedagogy, research and service to the university and surrounding North State communities. We invite you to apply to our welcoming teacher/scholar environment where you can have a successful career.

The Position: Temporary Faculty (Lecturer)

Salary: Salary commensurate with education and experience.

Initial Review Date: Applications will be reviewed as they are received and continue until the positions are filled.

How to Apply: Applicants must provide a current cover letter, a CV or resume, and contact information of three professional references. All applicants must apply online at: <https://jobs.csuchico.edu/postings/6367>

Applications submitted via email or in-person to the department will not be considered.

Qualification Details:

Minimum Qualifications The minimum education requirement for appointment to this position is either:

- a Master of Science or higher degree in Computer Engineering or in a related area from an accredited university by the time of employment

or

- a Bachelor of Science in Computer Engineering or in a related field from an accredited university and five or more years of industry experience.

In addition, successfully candidates must have:

- o a strong commitment to teaching with a proven record of or the potential for developing innovative pedagogical approaches to courses, labs, and projects.
- o a willingness to participate as team member to assess student outcomes and to adapt to changes in the curriculum.
- o excellent oral and written communication skills.
- o an awareness of the educational goals of a diverse and multicultural population.

Preferred Qualifications: Candidates in all areas of Electrical Engineering and Computer Engineering are encouraged to apply. Preference will be given to candidates in computer engineering disciplines including but not limited to: digital logic, digital system design, computer networking, cyber security, embedded systems including IoT, and computer architecture. Applicants with one or more years of teaching experience at the undergraduate level in Computer Engineering or Electrical Engineering, particularly in lower division courses, laboratory courses that emphasized engineering design, and/or capstone design courses, are also preferred.

Responsibilities: This lecturer position seeks candidates who will teach the electrical and computer engineering undergraduate courses and laboratories. These lab classes include digital logic, FPGAs and microcontrollers, embedded systems, circuits, systems, powers, and power electronics. The faculty should also be able to teach relevant core courses or mentor student projects. A successful faculty will support undergraduate students in their laboratory and senior design efforts through teaching relevant courses, managing the lab, and providing guidance. Teaching assignments are based upon qualifications of the individual and the needs of the department.

Department:

The Department of Electrical and Computer Engineering offers an ABET accredited bachelor's degree in Computer Engineering, and an ABET accredited bachelor's degree in Electrical/Electronic Engineering. The Department has approximately 250 undergraduate majors.

The department is in the College of Engineering, Computer Science, and Construction Management. Please visit the Department of [Department of Electrical and Computer Engineering](#), website and the [College](#) website for more information.
