Introduction:
The Wildlife Wonders topic this week is “How Do Insects Eat?” This topic discusses different types of mouthpieces and what types of foods they eat. This week’s activity includes a very creative and fun art project!

Activity:
This week you are going to make your own insect! Gather natural materials such as leaves, twigs, and anything that would make your litter critter look its best. Use these materials to make their segmented body and legs.

Invitations:
1. Take a picture of your insect
2. Go to our Facebook “Gateway Science Museum, California State University, Chico” and submit in “Write a post”
3. Post on your Instagram and tag us @gatewaysciencemuseumchico
4. Use hashtags: #GatewayFromHome #GatewayScienceMuseum #WildlifeWonders
