

# WE ARE HIRING!

Join our team at the  
**Geographical Information Center (GIC)**  
**Chico State Enterprises**

**Assistant 1-Research Assistant**  
**\$17.57-19.44 per hour**

Hybrid position; Familiarity with GIS and use of GPS preferred

Working under the supervision of GIC Project Managers, individuals will assist with research and outreach efforts under a variety of projects, primarily habitat restoration and forest health and replanting projects. The focus of the position is research and preparation of literature reviews on topics such as post-fire, wetland and salmonid restoration strategies, including spatial analysis tools for restoration prioritization, and other agency or policy documents that can support the Collective's restoration and land management work.

Individuals applying for these positions should have completed coursework or have practical experience in environmental sciences. Ideal candidates will be enrolled or taken coursework towards the completion of a master's degree in related programs. Knowledge, skills and abilities desired include:

- Experience conducting research and preparing literature reviews.
- Passion for and understanding of contemporary environmental and cultural issues.
- Proficiency with Microsoft Office Suite.
- Ability to work cooperatively in a team.
- Ability to follow directions and a willingness to learn.

*Deadline to apply is  
February 29, 2024*
