

**CSU Graduation Initiative  
Monthly Report: April 2010**

**Campus:** CSU, Chico

**Team Leaders:** President Paul J. Zingg and Provost and Vice President for Academic Affairs Sandra M. Flake

What did your team commit to completing during this month? (What did you promise?)	Status	What did you do and <i>how will it help?</i>
1. Begin to outline the dimensions of a Student Monitoring System initiative ( <b>Team 8</b> )		1. An initial group has been assembled to explore the dimensions of a student mentoring system. The group is excited about the possibilities; issues to be addressed uses of data, security, access and intervention; <i>the development of a student mentoring system will allow for earlier alert systems, intervention, and advising to ensure student success</i> ).
2. Begin to explore the system dynamics of the Chico Delivery Chain: identify links and integration		2. We continued a review of modeling efforts for individual chain elements; we are not yet in a position to review links and integration of models. Team members received a demonstration of the MindJet software being used in the management of the First-Year-Experience Program; <i>Contact is to be made with the company to explore the possibility of integrating LMB and EPB with MindJet features</i> .
3. Review appropriateness of proposed global delivery chain leading indicators / assess current data collection / availability		3. Discussion on nature, function and appropriateness of ‘global process measures’ continued this month. The development of leading indicators both at the delivery-chain level and the chain-element level is turning out to be quite challenging; <i>process measures are envisioned to be leading indicators for likelihood of successful attainment of overall initiative goals. Further work needs to be done on level of aggregation of the measures; diagnostic values of the measures; action-orientation of measures selected</i> .

What did your team commit to completing during this month? (What did you promise?)	Status	What did you do and <i>how will it help?</i>
4. Submit monthly report: April, 2010		4. Prepared and submitted April Report; <i>Keeps Chancellor Office Delivery Team happy☺.</i>

What will you accomplish next two month?
<ol style="list-style-type: none"> <li>1. Continue to outline the dimensions of a Student Monitoring System initiative (Team 8)</li> <li>2. Begin to explore the system dynamics of the Chico Delivery Chain: identify links and integration</li> <li>3. Review Lessons Learned; plan for CY 2010 – 2011</li> <li>4. Submit monthly report by June 30, 2010</li> </ol>
