

Psychology & Pre-Nursing Cross-Major Planning Guide

Use this planning guide in careful consultation with [Academic Advising](#), the [Chico State Catalog](#), and your Degree Progress Report.

If you've ever asked yourself, why do people do the things they do, the psychology (PSYC) major may be the right major for you and provide you knowledge and skills to begin to answer this question. In this major, you'll gain knowledge of human behavior and performance, individual differences, learning and motivation, psychological research methods, and assessment and treatment of behavioral and affective disorders.
