Important COVID-19 Related Policy Changes

University Housing is following all Butte County and State of California Public Health guidelines for physical distancing and social gatherings. This will impact many of the policies outlined in this document and it is important that you read and understand the following information. Please be aware that additional changes may occur. We’ll do our best to keep you informed, but please remember you will be notified of any further changes through your Chico State email. Below is a list of policies that have been added or adjusted due to COVID-19. Please note that failure to abide by the policies below may result in participation in the conduct process.

- You will be responsible for wearing face coverings at all times and adhering to physical distancing when not in your room. Face coverings and physical distancing are required in all residential community common areas, lobbies, hallways, elevators, and dining facilities (when not eating).

- You will be responsible for self-monitoring for COVID-19 related symptoms, this may include temperature taking. If you have symptoms, have come in contact with someone who has tested positive, or if you have tested positive you will be directed to isolate or quarantine in your own space or in another residential space provided to you.

- No guests or visitors will be allowed in any residential community after your move-in appointment time. This includes family members or friends who live in other residential communities.

- There will be a limit of one additional person in any resident's room at any time.

- Residents are required to utilize an online appointment scheduling system for use of communal showers.
- You will be required to complete COVID testing and verify results when requested.
MAKING DECISIONS

The success of a campus housing community rests on a commitment to safety and mutual respect. University Housing empowers residents to learn from the decisions they make through reflective meetings, restorative practices, and educational sanctions. As a departmental team, it is our privilege and responsibility to help residents understand that they are part of the greater community and the impact of their decisions.

By signing the University Housing License Agreement, residents enter a community living arrangement with other residents and staff. University Housing has the responsibility to set limits and guidelines that create a safe and welcoming place to live. Choosing to engage in behaviors that are detrimental to the success of self and the community may lead to consequences, including license agreement termination, if necessary.

The expectations included within this document are upheld by Resident Advisors, maintenance and custodial staff, desk attendants, mail attendants, and professional staff. Residents will be held accountable through the conduct process.

Note that Facebook, Twitter, Instagram, Snapchat, and other social media platforms may be used as evidence within the student conduct process.

University Housing reserves the right to update this policy guide at any time.

To help you make good decisions, University Housing has developed a set of policies consistent with the University’s Student Conduct Code and California State University, Chico’s Title 5 Resident Conduct Code of Regulations, as well as federal, state, and local laws.

Parental/guardian notification will be made when a resident is at risk of having their housing license terminated due to violating the provisions of Sections 41301 and 41302 of Title 5, California Code of Regulations or University Housing Policies. No details about the violations will be shared with parent/guardian unless the licensee has signed a Family Educational Rights and Privacy Act (FERPA) release. This notification is made to ensure that a resident and their parent/guardian is aware of potential termination of the license agreement and the potential that the Licensee will owe the amount due under the full Fee Period of the license.

You agree to be jointly responsible with other residents for the protection of the residence halls and University Village suites and studios, its furnishings, and equipment. Damages to, and/or theft of, public property are the responsibility of students in each living environment. The method for assessing charges to a living area follows procedures administered by University Housing.

- During the academic year you, your wing, your floor, or your entire community, may accrue charges for various reasons.
- Damages will be determined in part by your professional live-in staff, Custodial Supervisor, and the University Housing Office.

University Housing recognizes that our residents come from diverse backgrounds and may have a variety of needs. If you need accommodations regarding any of the policies in this document, or in completing any sanctions, please reach out to Jenna Wright at jmwright@csuchico.edu.
