When you order using your meal plan, the payment method may show as "rollover".

At the time of ordering, there is a box to enter special instructions for your order. You may ask for extra or lite sauces, ingredients on the side, etc.

We will not be able to give extra portions, or ingredients not listed on the menu. Besides calling our office line, writing a note in the special instructions is the easiest way to let us know if there are any issues with the App, or give feedback on how we're doing.
