Presented by Systemwide Learning & Development

April 16

10:00am - 11:00am PT

All CSU Staff and Faculty are invited to [attend this free Zoom webcast.](#)

You've probably met someone who had the gift of relating to people. They were able to focus productively on the future, no matter what was in the past. And without question, they made an impact on people wherever they went. It's not magic. It's both art and solid science. We call it Relationship Intelligence (RQ). With the right tools and a little practice, you can transform conversations, prevent conflict, and benefit your life in and beyond the workplace.

About Tim Scudder, Ph.D.

Dr. Tim Scudder has spent most of his professional life studying and teaching about personality and working relationships. While he began his career in public accounting, his audits and performance monitoring of workplace training agencies soon sparked his interest in the power of human potential and relationship awareness theory. That led to his work with Core Strengths, a global talent development company. As a principal in the company since 1995, Tim has played a lead role in creating curricula based on the ground-breaking work of the firm's founder, acclaimed psychologist Elias Porter, and developing the world's premier RQ assessment, the SDI 2.0. Tim has written and co-authored several books, articles, and training resources, including Results through Relationships, Have a Nice Conflict, The Leaders We Need and What Makes Us Follow, Working with SDI 2.0, and Relationship Intelligence.

CSULEARN

This webcast will be recorded and available on CSU Learn, along with other past sessions of CSU'S Got Talent!
