Overview

Anthem Blue Cross and Enloe Medical Center have been engaged in negotiations for several months to reach reasonable contractual language and reimbursement rates that are beneficial to both organizations. Unfortunately, Anthem Blue Cross and Enloe Medical Center were unable to reach agreement and the contract terminated effective November 1, 2018. Enloe Medical Center is located in the City of Chico in Butte County.

How Members are Affected

1. What Anthem Blue Cross products are affected by this hospital termination?

This termination affects the out-of-pocket obligations for most Anthem Blue Cross members who are enrolled in Commercial PPO, EPO, HMO, and POS benefit plans and receive care at Enloe Medical Center. Members who have Medicare Part C are affected, however, those with a Medicare supplemental policy for Part A and Part B (Medigap), are not affected by this contract termination.

2. Will members be notified about the contract termination?

Within five days after the hospital’s termination from the network, Anthem Blue Cross notified subscribers who personally accessed or had a covered family member access Enloe Medical Center within the last 12 months. In addition, members authorized or scheduled for a service or procedure at Enloe Medical Center were notified. The letters instruct members to call the Customer Service number on their ID card if they are in a current course of treatment at Enloe Medical Center or have questions or concerns about the contract termination. The DMHC letters state the following legally-required message regarding completion-of-covered-services/continuity-of-care:

   If you have been receiving care from a health care provider, you may have a right to keep your provider for a designated time period. Please contact the Anthem Blue Cross customer service department, and if you have further questions, you are encouraged to contact the Department of Managed Health Care (DMHC), which protects HMO/PPO consumers, by telephone at its toll-free number, 1-888-HMO-2219, or at a TDD number for the deaf or hard of hearing at 1-877-688-9891, or online at www.hmohelp.ca.gov.

Note: Anthem Blue Cross does not mail notices to members enrolled in ASO, JAA, MCS, or other self-funded plans (however, this does not preclude member eligibility for continuation of covered services). A template notice is available that can be forwarded to clients for their use in notifying their associates about the contract termination.

3. How are Anthem Blue Cross HMO members affected by Enloe Medical Center’s contract termination?

All non-emergency hospital services must be approved by the HMO member’s participating medical group/IPA. If approved, Anthem Blue Cross will cover the claim at the member’s in-network benefit levels. If not approved by the member’s participating medical group/IPA, the claim will be denied, as stated in the members Evidence of Coverage (EOC).

4. How do members know if their doctor will be affected by this hospital termination?

Many doctors have admitting privileges at more than one hospital. Just because a member’s doctor may have admitting privileges at Enloe Medical Center does not necessarily mean that a doctor cannot treat his or her patients at another participating hospital.
Physicians, Medical Groups, and Alternate Hospitals

5. What other participating hospitals are located in the Enloe Medical Center service area?

Anthem Blue Cross has a statewide hospital network of over 300 acute care facilities. The Find a Doctor function at www.anthem.com/ca can be used to locate a participating hospital in a specific area. The following is a partial list of alternate participating general acute care hospital(s) in the Enloe Medical Center service area:

- Feather River Hospital, 5974 Pentz Road, Paradise, CA 95969

*Note, the alternate hospital(s) may not be participating in all Anthem networks. Anthem members have been advised to verify with both their provider and the Anthem Blue Cross website at www.anthem.com/ca that the alternate facility is participating in their benefit plan’s network.* For a complete list of contracting hospitals, as well as ambulatory surgical centers and other ancillary facilities, please visit the Anthem Blue Cross website at www.anthem.com/ca. Customer Service representatives can check the provider database for a physician’s admitting privileges at another nearby in-network facility. Members should confirm the information they receive with their treating physician. Every effort will be made to assist members in determining their choices and understanding the potential financial consequences of seeking care with a provider that is not in the Anthem Blue Cross provider network.

6. Will Anthem Blue Cross notify PPO physicians and admitting HMO medical groups about the contract termination?

On September 19, 2018, Anthem Blue Cross mailed letters to admitting HMO medical groups and PPO physicians who maintain privileges/affiliations at Enloe Medical Center, informing them of the termination. These letters encouraged physicians to obtain alternate admitting privileges and/or arrange for the redirection of members to alternate participating hospitals.

*Additional letters to admitting HMO medical groups and contracted physicians were mailed immediately following the hospitals’ termination to inform them that the contract did in fact terminate, while again asking physicians to gain alternate admitting privileges if they have not already done so. In addition, the letters describe the below-referenced circumstances under which members can be admitted to Enloe Medical Center.*

The DMHC required Anthem to inform admitting physicians and medical groups that patients with a benefit plan regulated by the DMHC (i.e., Anthem Company Code 200c benefit plans) can continue to be referred to Enloe Medical Center for services after the November 1, 2018 contract termination date under the following circumstances:

- for any medically necessary services available at the Enloe Medical Center, but not available or cannot be scheduled, in a timely manner consistent with good professional practice, at an Alternate Hospital or other in-network contracted hospital facility within a reasonable geographic distance, including, but not limited to, acute psychiatric and hemodialysis services, or
- for any medically necessary services available at the Enloe Medical Center, where an in-network provider holds admitting privileges at the Enloe Medical Center and is unable to admit enrollees to an Alternate Hospital or other in-network contracted hospital facility within a reasonable geographic distance, in a timely manner consistent with good professional practice, or
- for any medical necessary services available at the Enloe Medical Center, when due to insufficient capacity, an enrollee may not be admitted to an Alternate Hospital or other in-network contracted hospital facility within a reasonable geographic distance, in a timely manner consistent with good professional practice.
HMO medical groups and PPO physicians have agreed in their contracts to admit members to Anthem Blue Cross participating hospitals to ensure that each member receives the maximum benefit level under his or her benefit agreement.

As the Prudent Buyer Participating Physician Agreement (the “Provider Agreement”) requires PPO physicians to maintain privileges at a participating hospital, physicians with exclusive admitting privileges to Enloe Medical Center have been informed that they need to obtain admitting privileges at an alternate participating hospital prior to November 1, 2018 in order to continue the Provider Agreement. This ensures that any necessary transition is as smooth and seamless as possible for them, their patients (our members) and the alternate participating hospital. If PPO physicians have questions or need additional information on how Anthem can help with this transition process, please contact the Anthem Blue Cross Network Relations Department at CAContractSupport@anthem.com.

Post-Termination Care

7. What if a member was in-patient at Enloe Medical Center on the day the contract terminated?

If a member is in-patient at 11:59 PM the day before the contract terminated, then the member will continue to receive uninterrupted care at Enloe Medical Center until he or she is discharged. In addition, the member’s in-network benefit levels will apply for the entire in-patient stay.

8. What about members who need to complete a course of treatment, have a scheduled procedure, or need an out-of-network referral for medically necessary services at Enloe Medical Center following the termination?

California law provides for completion of covered services/continuity of care for certain medical conditions following a provider’s termination if, among other things, the provider and the plan agree on a rate of payment. The current contract between Anthem Blue Cross and Enloe Medical Center has provisions that cover members for continuity of care/completion of covered services after the contract terminates. It is always Anthem Blue Cross’s intent to be prepared by having a Continuity-of-Care Agreement in place sufficient to meet the requirements of Health & Safety Code Section 1373.96. Anthem Blue Cross will comply with applicable requirements for completion of covered services/continuity of care in accordance with the law. If a member began a course of treatment at Enloe Medical Center before the contract termination date for one of the following conditions, the member or his/her physician can request continuity of care by calling the Anthem Blue Cross Customer Service Department:

- Members in an active course of treatment for an acute medical or behavioral health condition
- Members in an active course of treatment for a serious chronic condition
- Members who are pregnant, regardless of trimester
- Members with a terminal illness
- Members who are newborn children between the ages of birth and 36 months
- Members with a surgery or other procedure that was authorized by Anthem or a delegated provider (HMO medical group) prior to the termination date and scheduled to occur within 180 days after the termination date.

Eligibility for continuity of care depends on factors outlined in the member’s EOC. Continuity of care/completion of covered-services will be considered by the Anthem Blue Cross Transition Assistance Department on a case by case basis. When a case is approved, the claim(s) is/are processed at in-network benefit levels.
Note: HMO members and physicians wishing to request continuity of care/completion of covered services would not contact Anthem because all medical management is delegated to the provider group. HMO members and physicians should contact their participating medical group.

9. What if the member does not qualify for an out-of-network referral? Can the member choose to go to Enloe Medical Center anyway?

PPO and Traditional (Indemnity) Members:
Members enrolled in a DMHC-regulated benefit plan who elect to receive care at a non-contracting facility may be responsible for higher out of pocket expenses depending on benefit plan design for non-authorized services as stated in the member’s EOC. Note: There may be different arrangements for CDI-regulated benefit plans, ASO groups, or other self-insured clients.

EPO Members:
Members enrolled in a DMHC-regulated benefit plan must stay within the EPO hospital network aside from true emergency situations.

HMO Members:
All services must be approved by the member’s participating medical group/IPA. If approved, the claim will be covered at the member’s in-network coverage schedule of benefits. If not approved by the member’s participating medical group/IPA, and services are received at Enloe Medical Center, the claim may be denied as stated in the member’s EOC.

PPO physicians and HMO participating medical groups and IPAs that admit patients to Enloe Medical Center have been informed about the contract termination so that Anthem Blue Cross members will be admitted to participating network facilities following the contract’s termination date.

10. If a member does not have access to an alternate participating provider or a particular service is not available elsewhere, can he or she receive that service from Enloe Medical Center?

Anthem Blue Cross assures its members that they will have timely access to care. If a service is not available at an alternate participating provider, PPO members may request an out-of-network referral by contacting Customer Service. Requests will be reviewed on a case by case basis pursuant to the Anthem Blue Cross out-of-network referral policy. When an out-of-network referral is approved by Anthem Blue Cross, the member’s in-network benefit levels will apply. However, because Enloe Medical Center will no longer participate in the Anthem Blue Cross provider network, members may be responsible for higher out of pocket expenses, depending on their benefit plan. Every effort will be made to assist members in understanding the potential financial consequences of the decision to seek services from a non-participating provider.

11. What about members who need emergency medical care at Enloe Medical Center following the contract’s termination date?

A hospital’s emergency medical services do not require pre-authorization, regardless of where they are delivered. Enloe Medical Center must provide services for members requiring emergency care. Coverage will be provided according to the member’s policy benefits.

Anthem Blue Cross encourages members to make informed decisions about when to use urgent care as opposed to emergency room care. Urgent care is appropriate when a member needs a physician’s attention for a condition that is non-life threatening. Any member needing urgent care, but whose physician or network provider is unavailable, should go to the nearest immediate or urgent care facility.
Contract Negotiations

12. What is the status of the negotiations between Anthem Blue Cross and Enloe Medical Center?

Anthem Blue Cross does not share details of its confidential contract negotiations with the public. Our primary goal during contract negotiations is to ensure we are compensating hospitals fairly, while assuring the best access to health care at an affordable price for our members. We take protecting our members from exceedingly high medical costs very seriously and cannot agree to a contract that puts further pressure on the rising cost of health care paid by our customers.

13. Don’t hospital negotiations usually work themselves out after the contract termination date?

Negotiations often do work themselves out after the contract termination date, but that is not always the case. Anthem is working collaboratively with Enloe Medical Center as well as the PPO physicians and medical groups that maintain admitting privileges to the hospital, to ensure a smooth transition for our members.
