

HSI Grant-Seeking Philosophy

Chico State's Hispanic-Serving Institution (HSI) identity, mission, vision, and success are centered on students and our institution's responsibility to ensure them a transformative experience, not simply on HSI grant-getting.

- **We will proactively and competitively prepare for, and pursue, HSI grant opportunities.**
- **We will design and propose HSI grant projects, initiatives, or services that strategically and intentionally strengthen, expand and transform the educational experience for **Latinx and low-income students** at Chico State.**
- **We will propose HSI grant projects, initiatives or services that are:**
 - grounded in our institutional HSI mission and vision
 - aligned with University Strategic Priorities
 - student-success centered
 - Chico State-centered
 - informed by careful and ongoing analysis of relevant and disaggregated data
 - evidence-based
 - sustainable beyond the life of the grant
 - collaborative across campus units, and
 - aligned with Chico State's HSI Alianza's recommendations.
- **We will seek strategic external cooperative partners, when relevant.**
