

# HSI Grant Seeking Philosophy

- **We will proactively and competitively prepare for, and pursue, HSI grant opportunities.**
- **We will propose HSI grant projects, initiatives or interventions that center, strengthen or expand the educational experience for, and strategically and intentionally meet the needs of, Latinx and low-income students at Chico State.**
- **We will propose HSI grant projects, initiatives or interventions that are:**
  - student-centered;
  - Chico State-centered;
  - evidence-based;
  - sustainable beyond the life of the grant;
  - collaborative across campus units;
  - grounded in our HSI vision and University Strategic Priorities; AND
  - aligned with HSI Taskforce recommendations.
- **We will seek strategic external and cooperative partners, as relevant.**

Chico State's HSI identity and vision is centered on students, not grants.
