Informed Consent and Survey Instructions – 2018

Introduction and Informed Consent

BACKGROUND

The university community began the process of assessing the campus' climate in 2014 via a questionnaire jointly sponsored by the Office of the President and Academic Senate. That questionnaire was followed by full-length Campus Climate Surveys, the results of which can be found here. More recently, President Hutchinson engaged in a 100 day Listening Tour, and the information gathered through that process is found here. This survey is identical to the 2016 version, allowing for comparability across years.

CONFIDENTIALITY

Your participation in this survey is completely voluntary and confidential. No personal identifiers will be connected or stored with your responses to this survey. All responses will be combined and reported as statistical summaries. All open-ended responses will be edited to remove any identifiers, and will then be categorized and reported in the aggregate. **The survey is being administered by our Institutional Research office and they will not be recording IP addresses from the computer you might use to take the survey.** Questions about the data collection may be directed to the Office of Institutional Research via email at ir@csuchico.edu, or by phone at 898-5623. Paper copies of the survey are available upon request.

TAKING THE SURVEY

Faculty, thank you very much for taking the time to answer this survey. The survey will take approximately 15 minutes to answer. We appreciate the time you will take to honestly provide your responses to the important topics raised in this survey. Previous years' climate surveys generated high response rates, and we encourage you to continue this effort to better understand and improve campus morale.

FOLLOW-UP

The Campus Climate Survey Working Group (CCSWG) will ensure that the survey results will be made available to the campus community, and the CCSWG will continue its stewardship of the data, its analyses, summary, and presentation to campus. The target for initial dissemination of survey results for this iteration is at the start of the fall 2018 semester.

As we stated last year, the analyses of responses to this survey are intended to be used to formulate actions that will be targeted at making improvements in the areas identified by the survey.

Members of the Campus Climate Working Group (below) can also answer questions about how the survey was created:

Robert Knight, Robin McCrea, Jennifer Meadows, Evanne O'Donnell, Tom Rosenow, Paula Selvester, Matthew Thomas, and Sheryl Woodward

1.

1.1 Overall, how satisfied are you working at CSU, Chico? Very satisfied Somewhat satisfied Neither dissatisfied nor satisfied
