

[Student Feedback on Teaching and Learning \(SFOT\) Survey Instructions for Students in Canvas](#)

The SFOT is a short assessment of faculty on campus by the students in their classrooms. It is your opportunity to provide constructive input on how your faculty can potentially improve how they teach their courses at Chico State. All survey responses are anonymous.

Students may access the Student Feedback on Teaching and Learning (SFOT) survey tool through the university's learning management system, Canvas.

Students will find links to SFOT's that need completing under the "Feedback on Teaching" link that appears, by default, on the lower-left corner of their home screen in Canvas.

Note: If you do not see a link for student feedback, please ask your instructor to [enable student feedback in your Canvas course](#).

Additionally, students will receive weekly reminders via email regarding SFOT's they have not completed. In the email is a direct link to the survey.

If you have questions about the survey process, you may contact the Office of Institutional Research and Strategic Analytics at ir@csuchico.edu

If you encounter issues with Canvas and locating the SFOT survey, please contact ITSS at:
