4. Estimate student participation for each activity/program for this academic year (e.g., an activity has 15 members but only 10 attend competitions and incur expenses). Not all columns may apply to your activity/program. Do not include students attending/served by activities/programs.

a. Provide the following on estimated student involvement:

Approved IRA Activity/Program	Estimated # of Students Participating in Activity/Program	Estimated # of Students Incurring Costs	Estimated Per Student Out-of-Pocket Cost

b. Please list all known competitions/performances/events expected of each activity/program for this academic year:

Model United Nations	North West MUN National MUN	Seattle, WA New York City	Nov 21-25 APR 9 -16	40 35

5. Please provide updated information for each of your activities/programs as requested in the tables below and provide appropriate explanations.

Approved IRA Activity/Program	Are any activities/programs inactive or defunct? If yes, please explain.	Has student participation increased or decreased for any activity/program? If yes, please provide the percentage and explain.	Has any activity/program's allocation or expenses significantly increased or decreased (5-10%)? If yes, please provide the percentage and explain.
Anthropology Museum	No	Student participation has not fluctuated	10% increase of expenses. The Museum receives \$11,500 OE IRA funds. Originally this award was for 1 exhibit per year. We now create 3 exhibits annually. Keeping up with current technology and providing real world museum opportunities with graphics and immersive type exhibit experiences for the student's

			participants becomes increasingly more expensive and challenging over time. Topics are timely and serve the entire North State from campus courses to K-12.
Butte Creek Outdoor Classroom	No	+20%	Yes, there is an increase in spending due to wages increasing, and growth within the ecological reserves. This growth requires additional student staffing to meet the needs of program growth. Unfortunately, the base allocation has decreased, which makes it challenging to meet the needs of the program
Model United Nations	No	10%	Hotel costs \$125 last AY in Seattle, now \$149 per night. Airfare costs continue to rise.

6. What process does your college/unit use to determine baseline budget allocations each year?

BSS uses the baseline amount that IRA has determined to be their baseline, we have not made any adjustments thus far to their baselines. However, all three of our IRA funded programs regularly go beyond their IRA baseline allocations, funded by our IRA carryforward. That carryforward will, however, be all but depleted in the coming AY if their respective baselines are not increased, limiting the potential that each IRA program has demonstrated can be accomplished. My process in providing carryover funding for each of the programs is straightforward. I send each IRA program coordinator an email that if they wish additional IRA funding to meet with me so that we can talk about how much they hope to get and how that money will facilitate student learning and success. For the Museum of Anthropology, that might translate in buying materials needed to put on an exhibit that they otherwise could not do; for Model UN that means more students able to participate in regional and national competitions; for Butte Creek Outdoor Classroom that means being able hire more students to help coordinate outdoor field trips for CSU and K-12 students, and purchase supporting equipment. I already know the BSS IRA programs provide 'high impact' opportunities for students: more funding means scaling up what they do to serve more students.

7. How are each of the activities/programs in your college/unit evaluated each year?

I evaluate each according to the degree to which funding forwarded their respective goals, keeping in mind the importance of number of students served and the degree to which the programs provide student high impact experiences. If a program does not expend their baseline funding (a rare

event, but it has happened), I meet with the program coordinator to find out what is going on and determine whether the issue is short-term or indicative of a bigger systemic problem. In general, I keep up with what the programs are doing.

8. Provide the College's IRA carryover amounts for the last three years. (Colleges/units are to limit their carryover to no more than 20% of baseline allocations. Balances of more than 20% may impact a college/unit's future IRA allocations.)

College/Unit	2018-19 IRA Carryover to 2019-20	2017-18 IRA Carryover to 2018-19	2016-17 IRA Carryover to 2017-18
College of Behavioral and Social Sciences	\$40,495.76	\$26,327.31	\$23,644.93

Please explain any carryover (unused) balances your college/unit's activities/programs have and how you plan to spend these funds.

Approved IRA Activity/Program	Carryover Balance	How will the carryover balance be spent?
Anthropology Museum	\$257.11	Supplies
Butte Creek Outdoor Classroom	\$3,737.00	Supplies/Student time
