

Village Volunteers

Internship and Volunteer placements in Women's Studies (available year round)

Village Volunteers partners with NGOs around the world that work to empower marginalized women.

"We offer a truly immersive, meaningful, and safe volunteer experience. Village Volunteers works with students to create a tailored internship or volunteer opportunity that will meet their goals and academic requirements. Once the internship or volunteer experience is completed, we continue to support volunteers with reference letters to further their career or academic advancement. We encourage students to take advantage of our expertise in finding the right placement. Contact us at (206) 577-0515 for more information or [register](#) online."
