MECH / MECA 440AW – Capstone Design I
Course Syllabus
Mechanical & Mechatronic Engineering
Advanced Manufacturing and Applied Robotics
Fall 2021
California State University, Chico

Professor: Greg Watkins, Ph.D., PE
Contact: O’Connell 419A / 530-898-4388 / gkwatkins@csuchico.edu

Course Description: Design methods applied to mechanical / mechatronic systems in group design projects. Project definition, planning, and management. Design for manufacture, cost considerations, budgets, and teamwork. Oral and written presentation of design results. Initial stage of the capstone design project to be continued in MECH / MECA 440B. This is an approved Graduation Writing Assessment Requirement course; a grade of C- or better certifies writing proficiency for majors.

Prerequisites MECH 440A: GE Oral Communication (A1) requirement; GE Written Communication (A2) requirement; MECH 200; MECH 340 with a grade of C- or higher. Recommended: MECA 380, MECH 308, MECH 338.

Prerequisites MECA 440A: GE Oral Communication (A1) requirement; GE Written Communication (A2) requirement; EECE 315 (may be taken concurrently); EECE 344; MECH 200; MECH 340 with a grade of C- or higher. Recommended: MECA 380.

Course Objectives:
1. Learn and practice design methods applicable to mechanical / mechatronic systems as members of multidisciplinary teams
2. Acquire a skillset progressing from problem definition to conceptual design to detailed design
3. Exercise project planning, budgeting, and cost management
4. An ability to communicate effectively with a range of audiences
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Class Meetings: Section 01 – Lecture – TR – 11:00 to 11:50 – Langdon 300
Section 02 – Supervision – R – 5:00 to 7:50 – Langdon 300

Lecture: The lecture sessions will be used to present material related to the design process. Topics include overview of the design process, customer requirements, specifications, conceptual design, project planning, cost estimating, budgets, documentation, etc.

Supervision: The supervision section is utilized for sponsor presentation night and for the three required student presentations (Project Proposal, Preliminary Design Review, and Final Design Review). The remaining Thursday night class meetings may be utilized for additional topics such as motor sizing, inventive design, CNC workshops, etc.
Blackboard Learn: This class will make use of the Blackboard Learn course management system. Primary content will include lectures, handouts, and an on-line gradebook. Other content, such as non-urgent announcements, may be posted as needed throughout the term.

Email: In the event I need to contact members of the class or make urgent announcements regarding presentations, class cancellations, etc., it will be done via your WildcatMail email account. I do not plan to use this method of communication frequently, but I do expect that information sent this way will be received. University policy requires students to monitor their WildcatMail accounts. If you have another preferred email provider, you may set up automatic forwarding of your WildcatMail to that address. Details are available at www.csuchico.edu/itss.

Academic Integrity: Academic integrity is taken seriously at the University, in this College, and Department, and by your professor. Violations will be referred to student judicial affairs and can result in penalties ranging from failure of the course to long term suspension from the university.

Contribution: All project work in this class is team based, but students will receive individual grades for “Contribution to the Project.” The grade is determined by the faculty advisor and is based on peer evaluations, advisor meetings, general observations, and the content of the student’s design log book.

Kindergarten Points: Professionalism and organizational behavior are topics that are intertwined throughout this course. As senior students, professional behavior, similar to that expected in the workplace, is expected here. That includes following instructions, submitting documents on time, in the correct format, and to the correct place. It also includes attending, and being on time for, all class meetings, events, and presentations. Failure to exhibit professional behavior will result in the assignment of Kindergarten Points which correspond to a deduction in the student’s course contribution grade. These points are so named because everything you need to know to avoid them, you learned in Kindergarten.

Americans with Disabilities Act: If you need course adaptations or accommodations because of a disability or chronic illness, or if you need to make special arrangements in case the building must be evacuated, please make an appointment with me as soon as possible, or see me during office hours. Please also contact Accessibility Resource Center (ARC) as they are the designated department responsible for approving and coordinating reasonable accommodations and services for students with disabilities. ARC will help you understand your rights and responsibilities under the Americans with Disabilities Act and provide you further assistance with requesting and arranging accommodations. ARC is located at Student Services Center 170 and may be reached at 530-898-5959 or arcdept@csuchico.edu.
COVID-19  The CSU requires students to be fully vaccinated against COVID-19 by September 30, 2021, unless you have an approved exemption. Currently, Chico State is requiring everyone on campus to wear an approved face covering in all indoor campus spaces. Accordingly, all students are required to wear an appropriate face mask covering the nose and mouth in order to participate in this course. Policies and requirements regarding COVID-19 are subject to change pursuant to campus, local, state and/or federal guidelines.

Please note that dishonesty relating to the vaccination policy and/or your failure to comply with any other COVID-19 related safety policy or mandate, including the face covering requirement, may result in disciplinary action against you through the office of Student Conduct, Rights and Responsibilities, which can include suspension or expulsion from the California State University system.

Individuals unable to wear a face covering due to a medical condition should contact the Accessibility Resource Center by phone at (530) 898-5959 or by email at arcdept@csuchico.edu.

Note: If warranted, the course instructor, with input from the faculty advisor, may issue a failing grade regardless of a student’s computed final average.

Grade Scale: All grades are assigned in this class as grade points: A = 4 / B = 3 / C = 2 / D = 1 / F = 0
Grade Scheme: | A  | A- | B+ | B  | B- | C+ | C  | C- | D+ | D  | F  |

K-Points: Each Kindergarten point assigned corresponds to a 1/50 grade point deduction in a student’s contribution grade.

Milestones:  
- Thursday 9/2: Sponsor Presentations  
- Tuesday 9/7: Projects and teams assigned  
- Thursday 9/23: Project Proposal Presentations  
- Thursday 10/21: Preliminary Design Review Presentations  
- Thursday 12/9: Final Design Review Presentations  
- Thursday 12/16: Final Design Reports Due
