

CSU Chico
 Assessment Plan – Department of Biological Sciences
BA in Biological Sciences

SLO	2017-2018	2018-2019	2019-2020	2020-2021	2021-2022	2022-2023
1. Students can describe the structure and function of cellular components and explain how they interact in a living cell.				X		
2. Students can demonstrate an understanding of the mechanisms driving evolution, and can describe similarities and differences of the major taxonomic groups.	X					X
3. Students can describe how cells interact to develop tissues and organs, and how these contribute to a functional organism.					X	
4. Students can describe how organisms interact with one another and to their environment, and are able to explain interactions at the population and community levels.		X				
5. Students demonstrate an understanding of, and ability to use, the processes and methods of scientific inquiry.			X	X		
6. Students can formally communicate the results of biological investigations using both oral and written communication skills.			X
