Course Information Semester 4
Fall 2021

Spring classes begin on **August 23, 2021**. Faculty will use *Blackboard (Bb Learn)* to communicate with students regarding orientation and other class information.

Check your Wildcat e-mail to get updated communications on all your classes.

A **mandatory orientation** for N414 students in sections 1 through 4 **TBA**

Clinical Requirements – This is extremely important. Updates of all clinical requirements are due to SentryMD by Monday, August 2, 2021 (subject to change...check School of Nursing website). These requirements include updating proof of health and auto insurances (make sure your name appears on the submitted policy), as well as any expiring immunizations (i.e., PPD tests, flu vaccine) or CPR certifications. If your CPR expires soon, schedule renewal now and make sure you take the correct course. The CPR card needs to read, "Healthcare Professional or Healthcare Provider" and is good for two years. **Please note:** If clinical requirements are not updated by August 2, students may be unenrolled from clinical courses, which could affect financial aid eligibility. You will also lose professional points in your courses if this is not completed on time.

You must also complete all the modules that are required by Enloe Medical Center by **August 23, 2021**. otherwise you will not be allowed to participate in clinical until this requirement is met.

ATI

The ATI critical care dosage calculation exam will be administered on the first day of orientation for Nursing 403. Be sure to do the critical care dosage tutorials before the start of the semester. **Students who score less than 90% on the dosage calculation exam will not be allowed to administer medications.** Follow up exams will be scheduled and administered by your clinical instructor. The ATI comprehensive predictor proctored exam will be administered at approximately week twelve of the semester. See the syllabus for Nursing 403 for the scoring template. The comprehensive predictor, preparation and remediation will comprise 10% of your grade for Nursing 403. Any student who scores 70% or higher on the comprehensive predictor during fourth semester is not obligated to take the exam again during fifth semester. **All** students who score less than 70% on the fourth semester exam will be required to repeat the comprehensive predictor in fifth semester.

Students enrolled in **N 413 Maladaptive Behavior** class will take the ATI theory and calculations exams approximately week eleven of the semester. Students who score less than 90% on the calculations exam, will be required to retake the calculations exam. The ATI exam (theory) comprises 10% of your grade for Nursing N 413.

N404 (Practicum Integrative Nursing) - Announcements by your instructors will be posted on *Blackboard Learn* 1-2 weeks prior to the course start.
