

**School of Nursing
Semester 3 Course Information
FALL 2019**

Check your Wildcat e-mail for updated communications on all your classes. Faculty will also use *Blackboard Learn* to communicate with students regarding nursing classes. If you need to take other elective classes, Monday evenings would work the best with your School of Nursing (SON) schedule for third semester.

Clinical Requirements

All clinical requirements must be completed by Thursday, AUGUST 1, 2019. The School of Nursing will no longer use Castlebranch to verify clinical requirements. Please monitor your CSU, Chico student email over the summer for updated instructions on how to verify your requirements.

These requirements include updating proof of health and auto insurances (make sure your name appears on the submitted policy), as well as any expiring immunizations (i.e., PPD tests, flu vaccine) or CPR certifications. If your CPR expires soon, schedule renewal now and make sure you take the correct course. The CPR card needs to read, "Healthcare Professional or Healthcare Provider" and is good for two years. **Please note:** If clinical requirements are not updated by August 1, students may be unenrolled from clinical courses, which could affect financial aid eligibility. You will also lose professional points in your courses if this is not completed on time.

Register for the following courses:

N313 - Registration # 4921

N314: (register for one of the four sections)

- Section 1 - Registration # 4924 Enloe Medical Center
- Section 2 - Registration # 4940 Enloe Medical Center
- Section 3 - Registration # 4941 Mercy Medical Center Redding
- Section 4 - Registration # 4942 Mercy Medical Center Redding

N343 - Registration # 4964

N344: (all students register for the same location that you went to in Semester 2; register for different sections at Enloe)

- Section 1 - Registration # 4967 Enloe Medical Center-5th Floor
- Section 2 - Registration # 4968 Enloe Medical Center-3rd Floor
- Section 3 - Registration # 4969 Oroville Medical Center
- Section 4 - Registration # 4970 Adventist Health Rideout

Maternal/Child Nursing

N313 –Maternal/Child Lecture

N313 is the maternal/child lecture course which is taught in two separate 2-hour lectures on Wednesday afternoons for the entire semester. The first meetings of this course will be on Wednesday, August 28th in the afternoon.

N314 –Maternal/Child Practicum

N314 is the 135-hour clinical component which is taught either at Mercy Medical Center in Redding or Enloe Medical Center in Chico. All sections rotate through acute (hospital) OB and Pediatrics and have **many additional components, which include community sites, assignments, and simulation training.**

N314 ATI Dosage Calculation Assessments- All third semester students will be required to take the proctored ATI Pediatric and Maternal Newborn Dosage Calculation Assessments the first week of the semester. **By 4:00 pm on Saturday, August 24th you must have completed the 9 tutorial practice tests within the previous 60 days with a score of 90% or higher.** Completing these modules during a previous semester does not qualify. There is no need to print proof of completion as your clinical instructor will check online. **You will not be allowed entrance to the testing room on Friday for the proctored exams without completion of the tutorials which will mean a loss of 3 professional points.** To access the tutorials, please log into www.atitesting.com and go to the Products section and then the Tutorial tab. The 9 tutorials are: Safe Dosage, Medication Administration, Oral Medications, Injectable Medications, Powdered Medications, Parenteral (IV) Medications, Dosages by Weight, Critical Care (to prep for the Maternal Dosage Calculation Assessment) and Pediatric Medications (to prep for the Pediatric Dosage Calculation Assessment). You may not pass meds in the hospital clinical rotations until both the Pediatric and Maternal Newborn Dosage Calculation Assessments are passed with a score of 90%. You will also take 3 ATI proctored assessments for Maternal/Newborn, Pediatric, and Medical/Surgical content late in the semester. You must pass the proctored

N314-FIRST WEEK OF THE SEMESTER

N314 Orientation- Monday, August 26th from 9:00am-5:00pm on campus in Sylvester's and again on Friday, August 30th from 1:00pm-5:00 pm (Tehama 131). This is a **mandatory orientation and there is no make-up available.** A few days prior to the beginning of school, your N314 Blackboard course will be available that contains your syllabus, supplement, & various schedules. Please bring your computer to orientation. **You do not need to wear scrubs but please wear comfortable clothing and bring a small thin blanket, yoga mat, and pillow for our Labor Support Seminar on Monday afternoon.** The ATI Dosage Calculation proctored assessment will be administered at 2:00pm on Friday, August 30th during the second day of orientation.

Enloe On-Site Skills Lab/Computer Charting Training/Update - Tuesday, August 27, 8:00am-4:00pm Meet at the Enloe Conference Center at 8:00am. **If you have ANY of your Semester 3 clinical rotations at Enloe Medical Center (Med/Surg or OB/Peds), please leave this entire day free as Enloe has requested that students attend this MANDATORY training.** Please wear your CSUC scrubs.

N314 OB/Pediatrics Skills Lab in Holt 357: 8:00am-5:00pm. This will be a full day of maternal, neonatal, and pediatric hands-on skills that are essential for your clinical experiences. There is no make-up. Please wear your CSUC scrubs to the skills lab & bring your stethoscope & N314 skills lab checklist.

SECTIONS 3 & 4- Thursday, August 29 -First week of the semester

SECTIONS 1 & 2- Tuesday, September 3-Second week of the semester

N314 Simulations -Simulation Training is conducted at the Northern California Rural Simulation Center, located at 560 Cohasset Road, Chico. Please wear your CSUC scrubs and bring your stethoscope. Each session includes a one hour prep and 3 hours in the Simulation Center.

N314-02 and N314-03: Maternal (OB) on Thursday, 9/12/19; Newborn/Infant on Thursday, 9/26/19; and Pediatrics on Friday, 10/25/19.

N314-01 and N314-04: Maternal (OB) on Thursday 10/17/19, Pediatrics on Friday, 10/18/19, and Newborn/Infant on Thursday, 10/24/19.

N314- Sections 1 & 2- Enloe Medical Center for Acute Pediatrics and OB.

Note that up to 10 hours of online reading and tests are due on the first day of the semester, August 26th. You will receive an email from Enloe approximately 2-3 weeks prior to the start of the semester to access these modules with these words in the Subject heading: **epm-alerts@elsevier.com**. Please follow the link to complete your modules. **Enloe insists that you must have these done or the CSUC School of Nursing will need to remove you from your clinical section.**

N314-Section 1: Enloe Medical Center for Pediatrics and OB – Tuesdays, 6:30am-3:00pm on 9/10, 9/17, 9/24, 10/1 & 10/8 & 10/15. In addition, your clinical schedule will include shifts on Tuesdays from 1:00pm-9:30pm on 10/22, 10/29, 11/5, 11/12, and 11/19. **Section-specific orientation is on Friday, August 30th from 9:00 am-12:00 pm with your clinical instructor at Enloe Hospital.**

N314-Section 2: Enloe Medical Center for Pediatrics and OB Tuesday, 1:00pm-9:30pm on 9/10, 9/17, 9/24, 10/1, 10/8 and 10/15. In addition, your clinical schedule will include shifts on Tuesdays from 6:30am-3:00pm on 10/22, 10/29, 11/5, 11/12, and 11/19. **Section-specific orientation is on Friday, August 30th from 9:00 am-12:00 pm with your clinical instructor at Enloe Hospital.**

N314-Sections 3 & 4: Mercy Medical Center in Redding (MMCR) for OB & Pediatrics-

ORIENTATION for both MMCR sections: Friday, September 6th from 8:00am-5:00pm at Mercy Medical Center in Redding, CA. Please wear your CSUC scrubs and follow the CSUC School of Nursing dress code.

There are 8 clinical days that occur over 4 weeks on Friday and Saturdays; 6:30 a.m. – 6:00 p.m., as follows:

Section 3: September 13-14, September 20-21, October 4-5, October 11-12.

Section 4: November 1-2, November 8-9, November 15-19 and December 6-7

For more information about the N314 schedule, please e-mail Dr. Gayle Kipnis at gkipnis@csuchico.edu

Medical Surgical Nursing

Nursing 343: Lecture: This is a three-unit continuation of Nursing 303, which you took in second semester. This course, too, is primarily pathophysiology and care of the adult with disorders of those systems not covered in Nursing 303. The first meeting of this course will be on Wednesday, August 28th. The syllabus, course calendar, and other information will be published in Blackboard Learn a few days before the semester begins. The textbooks will be the same as for Nursing 303.

Nursing 344: Medical Surgical Nursing Practicum: This is the clinical accompaniment to Nursing 343. It is a 90-hour Medical/Surgical clinical on Mondays from 0700-1530 for 11 days with 2 hours in finals week. This includes 2 simulation days. All facility requirements must be done prior to beginning the semester/clinical rotation and this is your responsibility to complete.

Nursing 344 is the clinical accompaniment to Nursing 343. It is a 90-hour Medical/Surgical clinical on Mondays from 0700-1530 for 11 days with 2 hours in finals week. This includes 2 simulation days. All facility requirements must be done prior to beginning the semester/clinical rotation and this is your responsibility to complete.

You **must register for the same facility as second semester** For example, if you were in Oroville for Nursing 304, you will be there again for Nursing 344. The same holds true for Enloe and Rideout. At Enloe, **choose the section** that is different from your 2nd semester. For example, if you were on 3rd floor for your second semester rotation, choose the 5th floor for your third semester rotation.

Enloe Sections- Note that up to 10 hours of online reading and tests are **due on the first day of the semester, August 26th**. You will receive an email from Enloe approximately 2-3 weeks prior to the start of the semester to access these modules with these words in the Subject heading: **epm-alerts@elsevier.com**. Please follow the link to complete your modules. **Enloe insists that you must have these done or the CSUC School of Nursing will need to remove you from your clinical section.**

Enloe On-Site Skills Lab/Computer Charting Training/Update - Tuesday, August 27, 8:00am-4:00pm Meet at the Enloe Conference Center at 8:00am. **If you have ANY of your Semester 3 clinical rotations at Enloe Medical Center (Med/Surg or OB/Peds), please leave this entire day free as Enloe has requested that students attend this MANDATORY training. Please wear your CSUC scrubs.**

ATI

All students will take the ATI dosage calculation proctored exams during your orientation for N314 Maternal/Child on Friday, August 30th at 2:00pm and will not pass meds in N344 until both assessments are passed with a 90%. You will also take the ATI medical surgical proctored exam late in the semester. Dates and times will be announced.

For more information about the N343 or N344, please e-mail Dr. Darcy Lewis at dhostetter-lewis@csuchico.edu

N314 Maternal/Newborn/Pediatric Medication List

Please research the medications listed below & complete electronically or in your own handwriting on your choice of format (ex. grid, medication card, etc.) **by the first day of your clinical rotation.** All other medications that are listed in your N314 supplement are to be completed by the indicated weeks which align with the N313 Maternal/Newborn content. These medications are the day of your clinical rotation (either Tuesday or Friday). This will give you a context for researching each medication. Your clinical instructor will be checking your completion both during and at the end of the semester. This is worth 10 points for Maternal/Newborn medications and 10 points for Pediatric medications.

Please research the following aspects of each medication:

- Generic & Brand name of medication
- Safe dose range/rate of administration
- Action/Therapeutic Effects
- Contraindications/Adverse Effects
- Pharmacokinetics
- Nursing Implications

MATERNAL MEDICATIONS

Intrapartum/Tocolytic/Preeclampsia

Magnesium Sulfate 2-4 gram loading dose, *then* 1-4 grams/hr.

Betamethasone

Ephedrine

Terbutaline

Intrapartum Induction

Pitocin (Oxytocin) 1-20 milliunits/min

Cytotec (Misoprostol) 25-50 mcg vaginal or
Cervadil

Postpartum

Pitocin (Oxytocin) 10-20 units

Cytotec (Misoprostol) 800-1000 mcg PR or PO

Hemabate

Methergine

Rhogam

NEWBORN MEDICATIONS

Erythromycin Ophthalmic Ointment

HBIG

Hepatitis B Vaccine

Vitamin K

PEDIATRIC MEDICATIONS

Antibiotics /Antiinfectives

Ceftriaxone (Rocephin) (IV)

Garamycin (Gentamycin) (IV)

Metronidazole (Flagyl) IV & PO

Analgesics

Acetaminophen (PO & IV)

Ibuprofen (PO & IV)

Morphine (IV)

Lidocaine/Prilocaine (Emla) (topical)

Bronchodilators

Albuterol (via nebulizer/ inhaler)

Steroid

Methylprednisolone (Solumedrol) (IV) (PO= prednisolone)

Diuretic

Furosemide (Lasix) (PO & IV)
